**G. Limited Parking in Old Town East and Medical Center Area (Community Development)**

This Staff report requests the establishment of time-limited parking within the Commercial Area of Old Town East, the Medical Center Area and surrounding area.

Development Services Director Mendoza summarized the Staff report, referring to the information contained therein, and answered questions from the City Council.

Council Member Kusumoto asked if the issue was to solve the public use of public space for parking to frequent business.

Development Services Director Mendoza stated it was to limit employees parking in the public spaces for eight hours without circulation.

Council Member Kusumoto received clarification for his understanding of the parking areas. He indicated he was struggling with the issue and understood Staff's perception there was an issue and that small businesses believed it was not an issue. He indicated parking meters were to raise revenue and not address this issue. He was interested in Council's perception.

Council Member Hasselbrink questioned if it was possible to look at limiting residential parking in areas 2 and 3 to allow for parking during business hours.

Development Services Director Mendoza stated it could be looked into, but had not been considered to date.

Council Member Grose briefly discussed the parking meter status and stated the intent tonight was to formalize a program to help circulate parking and reevaluate after 90 days. He stated the restrictions could be reviewed at that point and stated he was in favor of moving forward. He expressed an interest in hearing from the business, customers, and people that utilize that area. He stated with parking being enforced, Staff would have a better idea if parking meters were needed. He believed this was a step in the right direction and looked forward to modifying the program as needed. He stated concern the business claimed they were not notified and pointed out the Traffic Commission had held a public meeting. He reiterated support for moving forward with the trial period and receiving feedback.

Mayor Pro Tem Edgar questioned the hours of operation for the salons.

Ms. Sphere indicated they could start as early as 7:00 a.m. and go as late as 9:00 p.m. The location was usually closed on Sunday.

Mayor Pro Tem Edgar pointed out the enforcement was Monday-Friday until 3:00 p.m. and questioned how much traffic the business received. He questioned what the parking requirements are when someone comes in and starts a new business and if the spaces were for employees or customers.

Development Services Director Mendoza indicated it was 1 space per 250 square feet; however, restaurants had a different category. He stated the spaces were for both customers and employees.

Mayor Pro Tem Edgar stated there was approximately 4-5 spaces for the salon and assumed the street parking would be the main overflow. He appreciated the permit parking suggestion and pointed out it was put in place due to the high school. He asked if there was possibility for additional spaces with diagonal parking.

Development Services Director Mendoza indicated there were opportunities on Pine and Regan.

Mayor Pro Tem Edgar acknowledged the complaints received about traffic and understood the proposed solution. He stated concern only one business was engaged and questioned the noticing and outreach for this item.

Development Services Director Mendoza stated flyers had been hand delivered at the Traffic Commission level and was the largest attended outreach meeting. He stated noticing was not done at the Council level.

Mayor Pro Tem Edgar questioned why the Traffic Commission had discussed parking on Oak when Council had been informed parking was not in the Commission's purview.

Development Services Director Mendoza advised the Commission had operated as the outreach component and hosted a meeting to vet issues in a public manner. He stated the Commission was not required to review the study, but Staff had asked the Commission to provide open house venue.

Mayor Pro Tem Edgar questioned if Council was flexible with extending the time limits if that would be acceptable.

Ms. Mejia stated four hours would be better and indicated they had found a way to coexist with the businesses around them.

Mayor Pro Tem Edgar was supportive of finding a compromise and believed four hour parking may be it. He acknowledged the businesses' participation and stated support for the parking strategy to use the streets to allow customers to come and go. He realized the limited parking spaces was an issue, but believed this policy was right for the long term.

Ms. Mejia questioned if there would be public comment on the item.

City Attorney Reisman advised Council may allow anyone who had not spoken to speak now.

## **RECESS**

The City Council took a brief recess at 7:03 p.m.

## **RECONVENE**

The City Council reconvened in Regular session at 7:17 p.m.

Mayor Murphy questioned if there had been outreach to Mr. Afshani, the hospital, and Trend Offset Printing.

Development Services Director Mendoza advised Mr. Afshani had been notified of the two hour parking, the hospital was supportive of the regulation; and, Trend opposed the removal of appealing parking spaces.

Mayor Murphy agreed there was a parking issue and recognized the survey indicates parking meters might not be supportive.

City Manager Plumlee advised Staff had taken a conservative approach to phase in the program. This would allow the Working Group to monitor the

occupancy levels to ensure they would be high enough to support the capital investment of parking meters.

Mayor Murphy referred to the charge for parking lot on Florista and Cherry and questioned if free parking had to be provided.

City Manager Plumlee advised they would have had to meet the parking requirements for the size of the building at the time they had applied for a business license.

Development Services Director Mendoza added the Code did not state the parking had to be free; it just had to be provided.

Council Member Grose pointed out the shopping center being discussed had many businesses where customers were in and out quickly. He recognized the businesses have grown since they were first established and may have outgrown their parking requirements.

Mayor Murphy questioned how the program would be eliminated if it was unsuccessful after 90 days. He asked if Staff had heard from any other businesses.

Development Services Director Mendoza reviewed the timeline included in the Staff report. He indicated after the 90 day review and additional study, Staff would know if parking meters were needed or if the issues had corrected themselves. He advised businesses had stated objections to the parking meters, but many were in favor of the parking limits.

Mayor Murphy questioned reversing the permit parking.

Development Services Director Mendoza stated it would take time to do outreach to the property owners. It would be feasible to have the issues vetted in that area within 90 days.

Council Member Kusumoto pointed out the permit parking area was also public parking. He stated support for having the area studied and having a comprehensive plan come forward.

Mayor Murphy suggested limiting the times in the parking lot on Pine St. and had hoped the Chamber would work with the hospital to help mitigate the parking issue. He indicated without time limitations, the prime parking was not being used to its full potential.

Council Member Grose believed there should be consistency with the City's parking restrictions and Afshani's parking lot. He questioned if the

two hour parking limits would be enforced while the new signs were being installed.

Development Services Director Mendoza gave a brief history of Afshani's parking lot. He pointed out there would not be a reduction in the number of spaces in the area and this was an effort to increase circulation. He stated existing parking would be enforced.

Mayor Murphy opened the item for public comment.

Gerri Mejia, resident, spoke regarding the following topics: preference for four hour parking enforcement or none at all; belief residents would disagree with removing parking permits for everyone and may be more open to permits for businesses only; medical center employees should utilize the parking structure; requested the process be slowed down to allow for public input; if parking tickets are issued business will decline; elderly clients need to be able to park in the parking lot; and, thanked the Council for meeting with her and the opportunity to be heard.

Javier Mejia, resident, expressed frustration that parking did not fall under the Traffic Commission; believed the parking issue could be solved with the hospital; confusion regarding parking due to outdated signage and green curbs; belief that there was available parking throughout the City being underutilized; support for enforcing existing regulations; and, not driving away customers with new regulations.

Mayor Murphy closed the item for public comment.

Council Member Grose believed a 90 day time frame would be needed to really get an understanding of the issue and did not believe 30 days would be sufficient. He stated support for Staff's recommend action.

Motion/Second: Grose/Edgar:

Motion: Adopt Resolution No. 2015-31, entitled, "A RESOLUTION OF CITY COUNCIL OF THE CITY OF LOS ALAMITOS, CALIFORNIA, ESTABLISHING LIMITED PARKING WITHIN THE COMMERCIAL AREA OF OLD TOWN EAST, MEDICAL CENTER AREA AND ADJACENT AREA."

Substitute Motion: Kusumoto/Murphy

Carried 3/2 (Edgar and Grose cast the dissenting votes): The City Council delayed Staff's recommendation to allow Staff to reach out to zones 2 and 3 for the possibility of relaxing daytime parking restrictions. Staff is to bring back one solution.

Council and Staff discussed the timeline for feedback. Staff advised feedback could be provided in January.

Mayor Pro Tem Edgar questioned what the impact of this decision would be and if Council was undoing all the work of the Traffic Commission had completed in the last six months.

Council and Staff discussed providing information to Council regarding modifying the residential parking program and the possibility of adding additional diagonal parking.

Mayor Murphy requested Staff meeting with Mr. Mejia to see where additional parking could be created.

Mayor Murphy closed the Public Hearing.

Mayor Pro Tem Edgar expressed concerns regarding Lexington and the impact it would cause.

## 11. DISCUSSION ITEMS

- A. Sober Living Home (Community Development)**  
This report provides an explanation of Sober Living Homes and how they are permitted to operate within neighborhoods.

City Manager Plumlee introduced the item.

Mayor Pro Tem Edgar spoke regarding the possibility of an establishment opening in the Rossmoor Highlands. He indicated the State required the City allow such establishments without restriction. He stated concern that the large properties in the Rossmoor Highlands would be prime locations for these establishments that receive funding from the State and would lower property values. He acknowledged the legal and statutory limitations.

Development Services Director Mendoza summarized the Staff report, referring to the information contained therein, and answered questions from the City Council.

Mayor Pro Tem Edgar questioned what regulations were in place for construction and retrofitting the houses. He stated concern about such establishments in Los Alamitos. He questioned if there were regulations that required medical staff to be on site.

Development Services Director Mendoza stated there were no treatments related to this type of use.

Mayor Pro Tem Edgar spoke briefly regarding his concerns related to loitering at these establishments. He questioned if there were any preventative measures the City could take. He understood it was a State regulation and the Municipal Code did not address the topic. He stated an interest in slowing the process down and questioned if the City had any options.

City Attorney Reisman advised there was nothing that could be done unless the City was prepared to be sued and defend against litigation, similar to Newport Beach and Costa Mesa. He stated sober living facilities were to be treated as if a family of 2 parents and 4 kids resided there. He indicated case law and State legislature prohibited the City from enacting any special regulations to prohibit or impose conditions.

City Council and Staff briefly discussed State legislation that allowed for sober living homes. Staff advised Code violations and neighbor complaints would be addressed just like any other residential home.

Council Member Hasselbrink suggested reaching out to the Association of California Cities of Orange County, ACC-OC, for any suggestions and accurate responses for the Council should they receive additional questions.
