Parking Workshop in Los Alamitos to Discuss Solutions

Los Alamitos, California – The City of Los Alamitos is holding a public workshop to discuss parking problems and potential solutions in the Medical Center, Old Town East, and Town Center areas. The date and location information is listed below:

Tuesday, March 1, 2016, 5:00 p.m. at the Los Alamitos Community Center, 10911 Oak Street

Those who live, work, shop, or visit the area are encouraged to attend, ask questions, and indicate preferences for potential parking solutions. The City will present information and maps to illustrate current parking problems, City objectives, study areas, current and potential time limitations, and additional steps that could be taken in the future.

Additional transportation and planning experts will be on hand to answer questions and guide the workshop. These experts are from the consulting firms Fehr & Peers and PlaceWorks. Both firms were involved in the recently adopted General Plan update for Los Alamitos. Fehr & Peers also prepared a parking study for the City in May 2015.

Can't make it? Questions and comments are still encouraged. More information is available on the City's website: <http://cityoflosalamitos.org>

If you need additional information, have questions, or would like to share comments, please e-mail the Director of Community Development at SMendoza@cityoflosalamitos.org
