Motion/Second – Mejia/Patz
Carried 7/0: The Traffic Commission approved the minutes of the Regular meeting of February 13, 2019 with the noted corrections.

6. STAFF REPORTS
A. Street Sweeping Signage around the Los Alamitos Medical Center
Area residents expressed concern over the lack of cleanliness of the streets surrounding the Los Alamitos Medical Center.

Traffic Engineer Iranitalab summarized the staff report.

The Traffic Commission and staff discussed the history of complaints received.
The Traffic Commission and staff discussed the following:

- The length of time in which the existing parking signage has been in place.
- The necessity for creating consistency and improving the aesthetics of the area.
- Whether the trash problem is only on specific streets or in all areas around the medical center.
- Elimination of the sign pollution in the area.
- The City is not responsible for the maintenance of Kaylor Street as it is owned by the medical center.
- Whether a new signage configuration would facilitate street sweeping.
- Identifying where it might not be a good decision to impose restricted parking (i.e., near the Casa Youth Shelter or Precious Life).
- Whether City staff might be able to take on the task of removing the signage.
- Some of the current signage does not meet the Manual on Uniform Traffic Control Devices (MUTCD) standards.

Motion/Second – Patz/West
Carried 6/1 (Singer opposed): The Traffic Commission approved a motion to have staff remove the signage, and where needed install the new signage as the Traffic Engineer defines necessary.

Traffic Engineer Iranitalab advised the Traffic Commission that before the installation of the new signage, a revised proposal will be presented to the Commission at a future meeting. A more definite cost will also be provided.

D. Traffic Commission Status Log
Commissioner Rodman noted the following:

- Item A17 – revise to read that the speed sign is working.

Commissioner Coxhill noted the following:

- Item C1 - revise to identify the street for this request. Should be Bloomfield Street.
- Item D2 - revise to identify the location of the request.

Commissioner Mejia noted the following:

- Item A4 – revise to show pending, as it is shown on the 7-year Capital Improvement Project (CIP) list.
- Item A9 – discussed whether this was still a possibility despite the retail development not moving forward.
- Item A14 – requested and received confirmation of this item being completed.
Traffic Engineer Iranitalab advised that the Katella Synchronization project with neighboring cities is scheduled for completion by the end of this year.

7. ITEMS FROM THE CITY ENGINEER
City Engineer Hunt advised of the following:

- Change over to electronic versions of the agendas only.
- CIP 18/19-05 for catch basin automatic retractable screens installations will be starting soon.
- An upcoming Orange County Sewer District project in various areas of the City.

8. ITEMS FROM THE TRAFFIC COMMISSION
Commissioner Singer stated the following:

- Five (5) traffic signs on the south side of Katella Avenue, between the 605 freeway and Wallingsford are starting to lean towards the street.
- Parkway trees are blocking the effectiveness of the street lights, on the east side of Los Alamitos Boulevard, between the car wash to Bradbury Road.
- Alley south of Katella from Lexington heading west, is really narrow which makes it difficult for vehicles to pass. Also, some of the vegetation on private property is overgrown.

Commissioner Mejia stated the following:

- A section of the block wall to the rear of Katella Deli parking lot has fallen over and is covered with overgrown vegetation.
- Requesting to see an agenda item at a future meeting for the request received for the installation of equipment for the visually impaired.
- Stated concern of the poor quality work the contractors are doing on the Apartment Row project for Golden State Water Company.
- Overgrown trees along Los Alamitos Boulevard. Also, inquired as to whether there is a plan for replacing the type of light fixtures in the SCE street lights.
- Southern California Edison (SCE) lights are out on Katella Avenue, moving towards the 24-hour fitness (Cypress City limits).

Vice Chair Patz stated the following:

- Request to adjust the new median lights on Los Alamitos Boulevard, so that the lights are triggered to turn on and off by the sensor and not the timer.
Chair Hill stated the following:

- Regarding the regular meeting minutes of November 14, 2018 – pg 4 – Item D – replace the wording to say 605 retail project instead of 605 freeway.
- Westbound Katella Avenue, turning southbound on Los Alamitos Boulevard took two cycles to get through.
- Inquired and was advised that City Engineer Hunt would be the point of contact to discuss the possibility of a pedestrian overpass.

Commissioner West asked and received information from City Engineer Hunt as to a request received for the installation of a new traffic signal near the new development, Ovation in Cypress. City Engineer Hunt advised that their request was denied.

Captain Karrer advised that the Traffic Commission’s completed Permit Parking Review completed by the Traffic Commission will be going before the City Council on Tuesday, February 19, 2019.

9. **ADJOURNMENT**
Motion/Second: Patz/Singer
Carried 7/0: The Traffic Commission unanimously voted to adjourn the meeting until February 13, 2019.

The Traffic Commission adjourned at 8:25 p.m.

TRAFFIC COMMISSION AGENDA REPORT

MEETING DATE: March 13, 2019 ITEM NUMBER: 6A

To: Chair Hill and Members of the Traffic Commission
Presented By: Dave Hunt, City Engineer
Subject: Review of the City Council discussion on Residential Permit Parking Program (citywide) on February 19, 2019

SUMMARY

The Traffic Commission recommendations of the completed Residential Permit Parking Program Review (citywide) were presented to the City Council at the February 19, 2019 Regular City Council meeting. The information being provided to the Traffic Commission is representative of the City Council’s action and direction taken during that meeting.

RECOMMENDATION

Receive and discuss.

BACKGROUND

As a result of the provisions set forth in the Los Alamitos Municipal Code, the Traffic Commission is responsible for reviewing the City’s Residential Permit Parking Program once every three years. The Commission spent several meetings in 2018 reviewing the parking programs for Old Town West, Old Town East, New Dutch Haven, Carrier Row and Greenbrook/Woodcrest neighborhoods. This effort included providing opportunity for residents and property owners from these neighborhoods to address the Commission either in writing or during the meetings. The information being provided to the City Council is representative of the Traffic Commission’s recommendation.

DISCUSSION

The following is a summary of the City Council’s actions:

1. City Council did not approve Resolution No. 2019-06 to terminate the permit parking program in the New Dutch Haven neighborhood.
2. City Council directed the Traffic Commission to revisit the Carrier Row and New Dutch Haven programs. Asked that methods for getting information out to residents be reconsidered in order to improve feedback and participation from residents and owners in these neighborhoods.

3. The City Council agreed to maintain the permit parking programs as they exist in the Old Town East, Old Town West and the Greenbrook/Woodcrest neighborhoods. Furthermore, the City Council stated that efforts will be underway to educate and inform residents in those areas, to ensure that all impacted occupants are aware of the program.

4. Asked staff to review the record as to when the Greenbrook/Woodcrest program was established in order to determine whether Marion Avenue was included in the original permit parking program when established in November 2005.

Staff encourages the Traffic Commission to watch the segment of the February 19, 2019 City Council meeting recording, which discusses this matter prior to the Regular March Traffic Commission meeting. The link to that YouTube video is the following: https://www.youtube.com/watch?v=G9vG7ACSVGE.

**FISCAL IMPACT**

None.
City of Los Alamitos  
TRAFFIC COMMISSION AGENDA REPORT

MEETING DATE: March 13, 2019  
ITEM NUMBER: 6B

To: Chair Hill and Members of the Traffic Commission

Presented By: Farhad Iranitalab, City Traffic Engineer

Subject: Request to install equipment to facilitate crossing for visually impaired pedestrians at the intersection of Los Alamitos Boulevard and Florista Street

SUMMARY

A resident in the Old Town West neighborhood has requested installation of equipment for visually impaired pedestrians, in efforts to facilitate the crossing for pedestrians at the intersection of Los Alamitos Boulevard and Florista Street.

RECOMMENDATION

Discuss and direct staff to prepare a plan to install the device for the visually impaired at the subject intersection.

BACKGROUND

Los Alamitos Boulevard is a four-lane road, divided north-south major arterial and carries a large number of vehicles and trucks. Florista Street is a neighborhood connector, that serves the Old Town West neighborhood to the west and the commercial and Los Alamitos Medical Center to the east.

DISCUSSION

Because of heavy traffic and loud noise, it is difficult to recognize which side of traffic is moving and which side is stopped. As a result, a visually impaired pedestrian might experience a very difficult time with identifying when it is safe to cross. Staff observed the traffic conditions at the intersection and determined that the installation of an audible device would assist pedestrians whom are visually impaired when crossing the street.

FISCAL IMPACT

$12,000 for fabricating signs, removing unnecessary signs and installing new signs.
