B. Building Future Fiscal Sustainability Program Update (Finance)
The City of Los Alamitos is at a financial crossroads. Future revenue and expenditure projections will require reduction of services, raising taxes, raising fees or a combination of such. As a result, the City developed a 10-20 year financial plan that shows the City must take extraordinary measures to mitigate projected budget deficits and loss of existing cash balances. The challenge facing the city is a projected structural deficit growing from $1.4M in 2020-21 to over $3.4M in 2027-28. The deficit is projected to top out at about $3.7M in 2031. In late 2018, the City proactively focused on developing a plan for “Building Future Fiscal Sustainability”.

As a part of the City’s Fiscal Sustainability process, critical choices were explored that enable the ability to act timely to avoid or minimize cuts to city services and ensure the City’s long-term financial stability. City staff worked closely with the Budget Standing Committee to identify, review and evaluate cost cutting and revenue enhancement options available to the City. The options identified were presented to City Council on August 19, 2019.

A key part of this effort involved the opportunity to engage with the community in order to provide information and obtain feedback. Over a dozen community engagement meeting have been held to date. Constructive feedback along with city service priorities were identified based on input from hundreds of residents. Another critical item was to obtain direct feedback from registered voters, which included conducting of a statistically reliable community survey, which was completed in November.

Interim City Manager Johnson summarized the Staff report. Fiscal Sustainability Manager Cain and Finance Director Hendrickson provided a PowerPoint Presentation.

3. SPECIAL ORDER OF THE DAY

A. Building Future Fiscal Sustainability Program Next Steps (Finance)
The City of Los Alamitos is at a financial crossroads where future revenue and expenditure projections will require a major reduction of city services, raising taxes, raising fees or a combination of such. The challenge facing the city is a projected structural deficit growing from $1.4M in Fiscal Year 2020-21 to over $3.4M in Fiscal Year 2027-28. The deficit is projected to top out at about $3.7M per year in 2031. With realistic revenue assumptions, growing deficits are forecasted with a cumulative deficit of $41.5M at the end of 2033-34.

In late 2018, the City proactively focused on developing a plan for “Building Future Fiscal Sustainability”. City staff worked closely with the Budget Standing Committee to identify review and evaluate cost cutting and revenue enhancement options available to the City. The options identified were presented to City Council on August 19, 2019.

A key part of this effort involved the opportunity to engage with the community in order to provide information and obtain feedback. Constructive feedback along with city service priorities were identified based on input from hundreds
Another critical item was to obtain direct feedback from registered voters, which included conducting of a statistically reliable community survey or most likely to vote registered voter, which was completed in November by a contracted vendor. The results of the survey showed after information was provided and opposition messages were presented, support for the sales tax measure remains well above the threshold for victory and outside the survey’s margin of error of 72% of likely voters.

City Manager Simmons introduced the item and Finance Director Hendrickson summarized the Staff report.

City Council and Staff discussed the following topics:

- Positive support from the residents for a 1% sales tax measure to maintain current service levels
- 2% additional sales tax limit as stated in Revenue and Taxation Code Section 7251.1
- Sales tax situations in surrounding cities and jurisdictions
- Additional funds would need to be allocated for FM3 to survey residents on 1.5% sales tax
- Ability for an outside agency to request voter approval for a tax up to the 2% maximum
- Would require legislative action to exceed 2% maximum
- Importance of educating the public that any additional sales tax approved by the voters would go directly to the City and not to the State
- Support for allowing the residents to vote on a 1.5% sales tax measure
- Support for continuing the discussion and allowing the newly appointed City Manager to vet out additional ideas
- City is facing a structural deficit despite reduction in Staff, reductions throughout the City
- Support for continuing public outreach to educate the public on the City’s structural deficit and the need for additional revenue
- Possibility of exploring an increase in Transient Occupancy Tax (TOT) after the new hotel is built at a separate election
- Possibility of exploring a measure regarding tax on marijuana sales
- Concern putting forward two ballot measures at the same election would split the vote and cause one or both measures to fail
- Best practices for money management would continue from the Council with or without an approved sales tax measure
- A second shorter follow up survey to gauge the residents support for 1.5% sales tax
- Different approval requirements for a specific tax versus a general tax
Motion/Second: Murphy/Hasselbrink
Unanimously Carried: The City Council:

1. Directed city staff to bring a cost estimate to the March 16, 2020 meeting for a shorter follow up survey of the community to evaluate their interest in either a 1% or 1.5% sales tax increase; and,

2. Directed city staff to formalize a list of Capital Improvement Projects and other services that could be addressed or implemented should the community support a 1.5% sales tax increase; and,

3. Directed city staff to continue their pro-active community outreach and feedback campaign related to “Building Fiscal Sustainability”, focusing in upon the option of pursuing a sales tax increase; and,

4. Report back to City Council during the April 20, 2020 meeting with a recommendation to place an ordinance on a future City Council meeting date. This ordinance would become effective only if voters approve of the measure during the November election.

4. CLOSED SESSION

A. CONFERENCE WITH LEGAL COUNSEL – EXISTING LITIGATION

B. CONFERENCE WITH LEGAL COUNSEL – ANTICIPATED LITIGATION
Initiation of litigation pursuant to paragraph (4) of subdivision (d) of Section 54956.9: One potential case.

City Attorney Daudt read the items aloud.

SUMMARY

At its regular meeting of January 21, 2020, the City Council introduced for first reading Ordinance Number 2020-01. This ordinance is intended to add language to Los Alamitos Municipal Code Title 12 providing certain provisions that will prohibit camping and the storage of personal property in public areas throughout the City of Los Alamitos.

RECOMMENDATIONS

Adopt Ordinance No. 2020-01, entitled, "AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF LOS ALAMITOS, CALIFORNIA, ADDING CHAPTER 12.52 TO TITLE 12 OF THE LOS ALAMITOS MUNICIPAL CODE PROHIBITING CAMPING AND THE STORAGE OF PERSONAL PROPERTY IN PUBLIC AREAS".

BACKGROUND

In January 2018, homeless advocates filed a lawsuit against the County of Orange and the cities of Orange, Anaheim and Costa Mesa related to policies and procedures impacting homeless individuals as well as related to the lack of adequate services and facilities for the homeless ("Catholic Workers et al"). Among the issues at stake in this lawsuit, and others, was the validity of anti-camping and related municipal code provisions that make it unlawful to be present, have property, sit or sleep in a public place. In the Martin v. City of Boise case that was decided in 2018, the Ninth Federal District Court ruled that anti-camping laws violated homeless individual's eighth amendment rights as prohibiting them from sleeping outdoors amounted to cruel and unusual punishment if there are no low-barrier shelter options available.

On August 16, 2019, a settlement agreement was entered into between the Orange County Catholic Workers and the North SPA Cities (Brea, Buena Park, Cypress, Fullerton, La Habra, La Palma, Los Alamitos, Placentia, Stanton, Villa Park and Yorba Linda) and filed with the U.S. District Court. This agreement commits to the establishment and operation of two new homeless centers having a minimum capacity of 200 beds. By
entering into and adhering to the settlement agreement, the City is now able to establish and enforce anti-camping provisions.

This item was introduced to City Council during the November 18, 2019 meeting. Staff recommended continuing the item to the January 21, 2020 meeting in order to allow more time for the North SPA cities to consider a model anti-camping ordinance as well as ensure the establishment of the homeless shelters and availability of beds prior to enforcement of the ordinance, as required by the aforementioned settlement agreement.

Staff recently received an update on the two shelters currently under construction, one being in Placentia and the other in Buena Park. Progress is being made with the Placentia shelter, which is scheduled to be open by the beginning of March, and the Buena Park shelter, scheduled for opening in May.

**DISCUSSION**

The proposed Ordinance specifically addresses the unauthorized use of public areas for camping or storage of personal property. Public areas should be accessible and available to residents and the public at large for their intended uses. The unauthorized use of public areas for camping and the storage of personal property interferes with the rights of other members of the public to use public areas for their intended purposes and can create a public health or safety hazard that adversely affects residential and commercial areas. The purpose of the regulations adopted by the ordinance is to maintain public areas in clean, sanitary and accessible condition to prevent the misappropriation of public areas for personal use, and to promote the public health and safety by ensuring that public areas remain readily accessible for their intended uses.

It should be noted that the proposed language does not propose any changes to the City’s existing code provisions that address use of public parks in the city during the hours of darkness (LAMC 12.40.010).

**FISCAL IMPACT**

None.

Submitted and Approved by: Chet Simmons, City Manager

Windmera Quintanar, MMC, City Clerk
At its regular meeting of January 21, 2020, the City Council introduced for first reading Ordinance Number 2020-01. Proposed Ordinance No. 2020-02 would amend Ordinance No. 2018-50 (the “Districting Ordinance”) to provide for the election of three, rather than two, City Councilmembers by-district at the next General Municipal election.

RECOMMENDATION

Adopt Ordinance No. 2020-02 entitled “AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF LOS ALAMITOS, CALIFORNIA, AMENDING ORDINANCE NO. 2018-05 TO REVISE THE SEQUENCE OF DISTRICT ELECTIONS.”

BACKGROUND

On July 30, 2018, the City Council of the City of Los Alamitos adopted Ordinance No. 2018-05 (the “Districting Ordinance”) establishing a district-based election system for City Councilmembers. Per the Districting Ordinance, commencing with the November 2020 General Municipal Election, City Councilmembers shall be elected “by-district” from the five Council districts shown and numbered on the district map attached to this report. Elections for District 1 and District 3 will occur in 2020; District 2, District 4, and District 5 will be contested in 2022.

On December 16, 2019, City Councilmember Warren Kusumoto resigned creating a vacant seat. On December 21, 2019, the City Council voted unanimously to fill the Council Vacancy by appointment in accordance with Section 502 of Article V. of the Los Alamitos Charter. The appointed term will run until the November 2020 General Municipal

election. Because Warren Kusumoto was elected for a four-year term in 2018, an at-large election in 2020 would be required to fill the remaining two-years of his term absent an amendment to the Districting Ordinance. To avoid this result, the City Council directed staff to bring forward an ordinance amending the sequence of district elections.

**DISCUSSION**

Proposed Ordinance No. 2020-02 would amend the Districting Ordinance to provide for the election of three Councilmembers by district in 2020, with two Councilmembers elected by district in 2022. As amended, District 1, District 2, and District 3 would be contested at the November 2020 General Municipal election. District 4, and District 5 would be contested at the November 2022 General Municipal election.

WHEREAS, to advance the transition from at-large to by-district elections in the City of Los Alamitos, and in furtherance of the purposes of the California Voting Rights Act of 2001 (Chapter 1.5 (commencing with Section 14025) of Division 14 of the Elections Code), the City Council desires to amend Ordinance 2018-05 to provide for the election of three, rather than two, Councilmembers by-district in November 2020.

To: Mayor Richard D. Murphy & Members of the City Council
Presented By: Chris Kelley, City Engineer
Subject: Approval of Plans and Specifications, and Authorization to Bid for Community Center Americans with Disabilities Act (ADA) Improvements Project (CIP No. 19/20-05)

SUMMARY
This report recommends actions to begin facilitating the construction for the Community Center ADA Improvements Project (CIP No. 19/20-05).

RECOMMENDATIONS
1. Approve the plans and specifications for the construction of the Community Center ADA Improvements Project (CIP No. 19/20-05); and,

2. Authorize Staff to advertise and solicit bid proposals.

BACKGROUND
The City of Los Alamitos proposes to upgrade two ADA ramps and portions of sidewalk within the City’s Community Center parking lot area in order to provide ADA compliance. The Park’s Department has asked that the work be scheduled after school has been released for the summer break (after May 28, 2020). Also, per the City Clerk, voting at the Community Center will take place from May 2 - June 3, 2020. After June, there is no voting until the end of October. Therefore, construction will need to start after these items and a tentative construction start date of June 8, 2020 has been selected.

DISCUSSION
The following is an approximate timeline for the completion of the Community Center ADA Improvements Project (CIP No. 19/20-05):

- 02/18/2020 Approval of plans & specifications by the City Council
- 03/30/2020 Advertise project
• 04/27/2020  Bid opening
• 05/18/2020  Award of Contract (City Council Meeting)
• 06/08/2020  Start of construction (after school session is out for summer)
• 07/08/2020  End of construction

FISCAL IMPACT

There is no cost associated with soliciting bids. Funding for this project is included in the FY 2019-2020 adopted budget from the Park Development Fund for $45,000 in account 40-570-5503.1936. The engineer’s estimate for construction costs is estimated to be $35,900.

B1.06 PROPOSAL

Proposals shall be made on the forms enclosed in SECTION C of these specifications with or without removal from the bound contract documents. All proposals shall give the prices proposed, both in words and in numbers, shall give all other information requested herein, and shall be signed by the bidder or his/her authorized representative, with his/her address. If the proposal is made by an individual, his/her name, signature and mailing address must be shown; if made by firm or partnership, the name and mailing address of the firm or partnership and the signature of at least one of the general partners must be shown; if made by a corporation, the proposal shall show the name of the state under the laws of which the corporation is chartered, the name and mailing address of the corporation, and the name and title of the person who signs on behalf of the corporation. If the proposal is made by a corporation, a certified copy of the bylaws or resolution of the board of directors of the corporation shall be furnished demonstrating the authority of the officer signing the proposal to execute contracts on behalf of the corporation.

Each proposal shall be enclosed in a sealed envelope, labeled as specified in SECTION A - NOTICE INVITING SEALED BIDS. Bidders are warned against making erasures or alterations of any kind, and proposals which contain omissions, erasures or irregularities of any kind may be rejected. No oral, telegraphic or telephonic proposals or modifications will be considered.

In conformance with the Business and Profession Code, § 7028.15, the Contractor must state clearly his/her license number and expiration date. In addition he/she shall sign a statement that these representations were made under the penalty of perjury. This statement shall be made on the EXPERIENCE STATEMENT in SECTION C.

The contractor will be required to pay prevailing wage pursuant to California Law, including California Labor Code §§ 1770 et seq. Copies of the prevailing rate of per diem wages are on file at the offices of the Agency.

B1.07 ADDENDA

Each proposal shall include specific acknowledgment in the space provided on SECTION C - BID PROPOSAL of receipt of all addenda issued during the bidding period. Failure to so acknowledge may result in the proposal being rejected as not responsive.

B1.08 BID PRICES

Bid prices shall include everything necessary for the completion of construction and fulfillment of the contract including, but not limited to, furnishing all materials, equipment, tools, plant and other facilities and all management, superintendence, labor and services, except as may be provided otherwise in the contract documents. In the event of a difference between a price quoted in words and a price quoted in numbers for the same quotation, the words shall be the amount bid.

In preparing bid prices, bidder represents that he/she has carefully examined the Contract Documents and the site where the work is to be performed and that he/she has familiarized himself with all local
conditions and federal, state and local laws, ordinances, rules, and regulations that may affect the performance of the work in any manner. The bidder further represents that he/she has studied all surveys and investigation reports about subsurface and physical conditions pertaining to the job site, that he/she has performed such additional surveys and investigations as he/she deems necessary to complete the work at his/her bid price, and that he/she has correlated the results of all such data with the requirements of the Contract Documents. The submittal of a bid shall be conclusive evidence that the bidder has investigated and is satisfied as to the conditions to be encountered, including locality, uncertainty of weather and all other contingencies, and as to the character, quality, quantities, and scope of the work.

The plans and specifications for the work show subsurface conditions or otherwise hidden conditions as the Design Engineer supposes or believes them to exist, but is not intended or to be inferred that the conditions as shown thereon constitute a representation that such conditions are actually existent. Except as otherwise specifically provided in the Contract Documents, the Agency, the Design Engineer and their consultants or agents shall not be liable for any loss sustained by the Contractor as a result of any variance of such conditions as shown on the plans and the actual conditions revealed during the progress of the work or otherwise.

The Contractor shall perform an independent take-off of the plans and bid accordingly. Quantities listed in the BID SCHEDULE in SECTION C are intended only as a guide for the Contractor as to the anticipated order of magnitude of work. Contractor shall be responsible for verifying all estimated quantities. Contractor will be reimbursed for the quantity of items actually installed as required by the Contract Documents and shown on the plans to neat line and grade.

The Contractor will not be reimbursed for unauthorized work performed outside of that required by the Contract Documents.

**B1.09 TAXES**

No mention shall be made in the proposal of sales tax, use tax, or any other tax, as all amounts bid will be deemed and held to include any such taxes which may be applicable.

**B1.10 RECOGNITION OF BONDING COMPANIES**

All bonding companies used by the Contractor in this contract must be recognized by the Federal Government within Circular 570. All proposals or contracts received that include bonds posted by bonding companies not recognized in Circular 570 will result in the disqualification of the bid proposal and forfeiture of the bid bond.

**B1.11 QUALIFICATION OF BIDDERS**

Each bidder shall be skilled and regularly engaged in the general class or type of work called for under the contract. A statement setting forth his/her experience shall be submitted by each bidder on the EXPERIENCE STATEMENT form provided in SECTION C.

Each bidder shall posses a valid Contractor’s License issued by the Contractor’s State License Board at the time his/her bid is submitted. The class of license shall be applicable to the work specified in the contract. Each bidder shall also have no less than five (5) years experience in the magnitude and character of the work bid.

It is the intention of the Agency to award a contract to a bidder who furnished satisfactory evidence that he/she has the requisite experience and ability, and that he/she has sufficient capital, facilities, and plant to enable him/her to prosecute the work successfully and properly, and to complete it within the time stated in the contract.
To determine the degree of responsibility to be credited to the bidder, the Agency will weigh any evidence that the bidder has performed satisfactorily other contracts of like nature, magnitude and comparable difficulty and comparable rates of progress. If in the opinion of the Agency, a bidder is determined to be insufficiently qualified, then that bidder will not be considered for award of the contract.

B1.12 DESIGNATION OF SUPPLIERS AND SUBCONTRACTORS

Each proposal shall have listed on the DESIGNATION OF SUPPLIERS AND SUBCONTRACTORS form provided in SECTION C the name and address of each subcontractor to whom the bidder proposes to sublet portions of the work in excess of one-half percent of the total amount of his/her bid. For the purpose of this paragraph, a subcontractor is defined as one who contracts with the Contractor to furnish materials and labor, or labor only for the performance of work at the site of the work or who will specially fabricate a portion of the work off the site pursuant to detailed drawings in the contract documents.

Public Contract Code § 4104 requires all bidders to list subcontractors who will perform work in excess of ½% of the total bid, or in the case of streets and highways, ½% or $10,000, whichever is greater.

Public Contract Code § 6109 prohibits a contractor from performing work with a subcontractor who is debarred pursuant to Labor Code §§ 1777.1 or 1777.7.

B1.13 PROPOSAL GUARANTEE

The proposal shall be accompanied by a proposal guarantee bond duly completed on the form provided herewith by a guarantee company authorized to carry on business in the State of California for payments to the Agency in the sum of at least 10% of the total amount of the bid proposal, or alternatively by a certified or cashier’s check payable to the Agency, or cash, in the sum of at least 10% of the total amount of the bid proposal. The amount payable to the Agency under the proposal guarantee shall be forfeited to the Agency in case of failure or neglect of the bidder to furnish, execute and deliver to the Agency the required bonds, evidence of insurance and to enter into, execute and deliver to the Agency the agreement on the form provided herewith, within ten (10) days after being notified in writing by the Agency that the award has been made and the agreement is ready for execution.

B1.14 MODIFICATION OF PROPOSAL

A modification of a bid proposal already received will be considered only if the modification is received before the time announced for the opening of bids. All modifications shall be made in writing, executed and submitted in the same form and manner as the original bid proposal.

B1.15 WITHDRAWAL OF PROPOSAL

A proposal may be withdrawn by a written request signed by the bidder. Such requests must be delivered to the Agency’s designated official prior to the bid opening hour stipulated in SECTION A – NOTICE INVITING SEALED BIDS. Proposals may not be withdrawn after that time without forfeiture of the proposal guarantee. The withdrawal of a proposal will not prejudice the right of the bidder to submit a new proposal, providing there is time to do so.

B1.16 POSTPONEMENT OF BID OPENING

The Agency reserves the right to postpone the date and time for opening of bids at any time prior to the date and time announced in SECTION A–NOTICE INVITING SEALED BIDS.
B1.17 DISQUALIFICATION OF BIDDERS

If there is reason to believe that collusion exists among the bidders, none of the bids of the participants in such collusion will be considered. In the event that any bidder acting as a prime Contractor has an interest in more than one proposal, all such proposals will be rejected, and the bidder will be disqualified. This restriction does not apply to subcontractors or suppliers who may submit quotations to more than one bidder, and while doing so, may also submit a formal proposal as a prime Contractor.

B1.18 REJECTION OF PROPOSALS

The Agency reserves the right to reject any and all proposals, to waive any irregularity, and to reject any proposals which are incomplete, obscure or irregular; any proposals which omit a bid on any one or more items on which bids are required; which omit unit prices if unit prices are required; in which unit prices are unbalanced in the opinion of the Agency; which are accompanied by insufficient or irregular bid security; or which are from bidders who have previously failed to perform properly or to timely complete contracts of any nature.

B1.19 AWARD OF CONTRACT

The Contract will be awarded, if at all, to the lowest responsible and responsive bidder, whose bid proposal is not rejected for cause by the Agency. However, until an award is made, the Agency reserves right will be reserved to reject any or all bids, and to waive technical errors or discrepancies, if to do so is deemed to best serve the interests of the Agency. In no event will an award be made until all necessary investigations are made as to the responsibility and qualifications of the bidder to whom it is proposed to make such an award.

Each bidder’s attention is directed to the possibility that the award of the project may be delayed for various reasons. The Agency reserves the right to delay the award of the project for 45 calendar days. After 45 calendar days, the low bidder may at any time request release from its bid without penalty.

The acceptance of a proposal will be evidenced by a Notice of Award of Contract in writing, delivered by mail to the bidder whose proposal is accepted. No other act of the Agency shall constitute acceptance of a proposal. The award of contract shall obligate the bidder whose proposal is accepted to furnish a performance bond, payment bond and maintenance bond, as well as evidence of insurance and to execute the contract set forth herein.

B1.20 RETURN OF PROPOSAL GUARANTEES

Within ten (10) calendar days after the bids are opened, the Agency will release the proposal guarantees accompanying the proposals which are not to be considered in making the award. Proposal guarantees for the two lowest bidders will be held until the contract has been fully executed, after which they will be returned to the respective bidders.

B2.21 EXECUTION OF CONTRACT

The contract agreement shall be executed in duplicate by the successful bidder and returned, together with the contract bonds and evidence of insurance, within ten (10) calendar days after the notification of the contract award by the Agency in writing. In case of failure of the successful bidder to execute the contract agreement within ten (10) calendar days after such notice, or any subsequent extension approved by Agency, the Agency at its option may consider the bidder in default, in which case the bid bond or proposal guarantee accompanying the bid shall become the property of the Agency. After execution by the Agency, one original contract shall be returned to the Contractor.
B1.22 FLEXIBILITY OF BID SCHEDULE

It is the intent of the Agency to award a contract to the lowest responsible and responsive bidder and the flexibility shown in the bid schedule is necessary to ensure a project within the Agency’s budget limits and constraints.

AGENCY hereby employs CONTRACTOR to provide the materials, do the work, and fulfill the obligations according to the terms and conditions herein contained and referred to, for the prices provided herein, and hereby contracts to pay the same at the time, in the manner, and upon the conditions set forth in this AGREEMENT.

In entering into a public works contract or a subcontract to supply goods, services, or materials pursuant to this AGREEMENT, CONTRACTOR offers and agrees to assign to the AGENCY all rights, title, and interest in and to all causes of action it may have under Section 4 of the Clayton Act (15 U.S.C. Sec. 15) or under the Cartwright Act (Chapter 2 (Section 16700, et seq.) of Part 2 of Division 7 of the Business and Professions Code), arising from purchases of goods, services, or materials pursuant to the public works contract or the subcontract. This assignment shall be made and become effective at the time the awarding body tenders final payment to CONTRACTOR, without further acknowledgment by the parties.
ARTICLE III: Compensation

A. CONTRACTOR agrees to receive and accept the prices set forth in the Bid Proposal and Bid Schedule as full compensation for furnishing all materials, performing all work, and fulfilling all obligations hereunder. In no event shall the total compensation and costs payable to CONTRACTOR under this Agreement exceed the sum of Dollars ($___ ___ ___.) unless specifically approved in advance and in writing by AGENCY.

Such compensation shall cover all expenses, losses, damages, and consequences arising out of the nature of the work during its progress or prior to its acceptance including those for well and faithfully completing the work and the whole thereof in the manner and time specified in the aforesaid Contract Documents; and also including those arising from actions of the elements, unforeseen difficulties or obstructions encountered in the prosecution of the work, suspension or discontinuance of the work, and all other unknowns or risks of any description connected with the work.

B. This AGREEMENT is subject to the provisions of Article 1.7 (commencing at Section 20104.50) of Division 2, Part 3 of the Public Contract Code regarding prompt payment of contractors by local governments. Article 1.7 mandates certain procedures for the payment of undisputed and properly submitted payment requests within 30 days after receipt, for the review of payment requests, for notice to Contractor of improper payment requests, and provides for the payment of interest on progress payment requests which are not timely made in accordance with that Article. This AGREEMENT hereby incorporates the provisions of Article 1.7 as though fully set forth herein.

C. At the request and expense of CONTRACTOR, securities equivalent to the amount withheld shall be deposited with AGENCY, or with a state or federally chartered bank in this state as the escrow agent, who shall then pay those moneys to CONTRACTOR upon Agency’s confirmation of CONTRACTOR’S satisfactory completion of this AGREEMENT. At any time during the term of this AGREEMENT CONTRACTOR may, at its own expense, substitute securities for funds otherwise withheld as retention (or the retained percentage) in accordance with Public Contract Code § 22300.

ARTICLE IV: Labor Code

AGENCY and CONTRACTOR acknowledge that this AGREEMENT is subject to the provisions of Division 2, Part 7, Chapter 1 (commencing with Section 1720) of the California Labor Code relating to public works and public agencies and agree to be bound by all the provisions thereof as though set forth fully herein. Full compensation for conforming to the requirements of the Labor Code and with other Federal, State and local laws related to labor, and rules, regulations and ordinances which apply to any work performed pursuant to this AGREEMENT is included in the price for all contract items of work involved.

This AGREEMENT is further subject to prevailing wage law, including, but not limited to, the following:

A. The CONTRACTOR shall pay the prevailing wage rates for all work performed under the AGREEMENT. When any craft or classification is omitted from the general prevailing wage determinations, the CONTRACTOR shall pay the wage rate of the craft or classification most closely related to the omitted classification. The CONTRACTOR shall forfeit as a penalty to AGENCY $200.00 or any greater penalty provided in the Labor Code.
for each Calendar Day, or portion thereof, for each worker paid less than the prevailing wage rates for any work done under the AGREEMENT in violation of the provisions of the Labor Code whether such worker is employed in the execution of the work by CONTRACTOR or by any Subcontractor under CONTRACTOR. In addition, CONTRACTOR shall pay each worker the difference between such prevailing wage rates and the amount paid to each worker for each Calendar Day, or portion thereof, for which each worker was paid less than the prevailing wage rate.

B. CONTRACTOR shall comply with the provisions of Labor Code Section 1777.5 concerning the employment of apprentices on public works projects, and further agrees that CONTRACTOR is responsible for compliance with Section 1777.5 by all of its subcontractors.

C. Pursuant to Labor Code § 1776, CONTRACTOR and any subcontractor shall keep accurate payroll records, showing the name, address, social security number, work classification, straight time and overtime hours worked each day and week, and the actual per diem wages paid to each journeyman, apprentice, worker, or other employee employed by him or her in connection with this AGREEMENT. Each payroll record shall contain or be verified by a written declaration that it is made under penalty of perjury, stating both of the following: (1) The information contained in the payroll record is true and correct; and (2) The employer has complied with the requirements of Labor Code §§ 1811, and 1815 for any work performed by his or her employees on the public works project. The payroll records enumerated under subdivision (a) shall be certified and shall be available for inspection at all reasonable hours as required by Labor Code § 1776.

D. This AGREEMENT is further subject to 8-hour work day and wage and hour penalty law, including, but not limited to, Labor Code Sections 1810 and 1813, as well as California nondiscrimination laws, as follows:

CONTRACTOR shall strictly adhere to the provisions of the Labor Code regarding the 8-hour day and the 40-hour week, overtime, Saturday, Sunday and holiday work and nondiscrimination on the basis of race, religious creed, color, national origin, ancestry, physical disability, mental disability, medical condition, marital status, sex or sexual orientation, except as provided in Section 12940 of the Government Code. Pursuant to the provisions of the Labor Code, eight hours’ labor shall constitute a legal day’s work. Work performed by CONTRACTOR’s employees in excess of eight hours per day, and 40 hours during any one week, must include compensation for all hours worked in excess of eight hours per day, or 40 hours during any one week, at not less than one and one-half times the basic rate of pay. CONTRACTOR shall forfeit as a penalty to AGENCY $25.00 or any greater penalty set forth in the Labor Code for each worker employed in the execution of the work by CONTRACTOR or by any Subcontractor of CONTRACTOR, for each Calendar Day during which such worker is required or permitted to the work more than eight hours in one Calendar Day or more than 40 hours in any one calendar week in violation of the Labor Code.

E. This AGREEMENT is subject to Public Contract Code Section 6109: CONTRACTOR shall be prohibited from performing work on this project with a subcontractor who is ineligible to perform work on the project pursuant to Sections 1777.1 or 1777.7 of the Labor Code.

ARTICLE V: Work Site Conditions
A. In compliance with and pursuant to Government Code Section 4215, AGENCY shall assume the responsibility, as between the parties to this AGREEMENT, for the timely removal, relocation, or protection of existing main- or trunk-line utility facilities located on the site of any construction project that is a subject of this AGREEMENT, if such utilities are not identified by AGENCY in the plans and specifications made a part of the invitation for bids. The Contract Documents shall include provisions to compensate CONTRACTOR for the costs of locating, repairing damage not due to the failure of CONTRACTOR to exercise reasonable care, and removing or relocating such utility facilities not indicated in the plans and specifications with reasonable accuracy, and for equipment on the project necessarily idled during such work. CONTRACTOR shall not be assessed liquidated damages for delay in completion of the project, when such delay was caused by the failure of AGENCY or the owner of a utility to provide for removal or relocation of such utility facilities.

B. To the extent that the work requires trenches in excess of five feet (5’) and is estimated to cost more than $25,000, prior to any excavation, CONTRACTOR must provide the AGENCY, or a registered civil or structural engineer employed by the AGENCY to whom authority has been delegated to accept such plans, a detailed plan showing the design of shoring, bracing, sloping, or other provisions to be made for worker protection from the hazard of caving ground during the excavation of such trench or trenches. If such plan varies from the shoring system standards, the plan shall be prepared by a registered civil or structural engineer. Nothing in this section shall be deemed to allow the use of a shoring, sloping, or protective system less effective than that required by the Construction Safety Orders.

C. This AGREEMENT is further subject to Public Contract Code Section 7104 with regard to any trenches deeper than four feet (4’) involved in the proposed work as follows:

CONTRACTOR shall promptly, and before the following conditions are disturbed, notify AGENCY, in writing, of any:

(1) Material that CONTRACTOR believes may be hazardous waste, as defined in Section 25117 of the Health and Safety Code, which is required to be removed to a Class I, Class II, or Class III disposal site in accordance with existing law.

(2) Subsurface or latent physical conditions at the site differing from those indicated by all available information provided prior to the deadline for submission of bids.

(3) Unknown physical conditions at the site of any unusual nature, different materially from those ordinarily encountered and generally recognized as inherent in work of the character provided for in the contract.

AGENCY shall promptly investigate the conditions, and if it finds that the conditions do materially so differ, or involve hazardous waste, and cause a decrease or increase in CONTRACTOR’s cost of, or the time required for, performance of any part of the work, AGENCY shall issue a change order under the procedures described in this AGREEMENT.

In the event that a dispute arises between AGENCY and CONTRACTOR whether the conditions materially differ, or involve hazardous waste, or cause a decrease or increase in CONTRACTOR’s cost of, or time required for, performance of any part of the work, CONTRACTOR shall not be excused from any scheduled completion date provided in the AGREEMENT, but shall proceed with all work to be performed under the AGREEMENT.
CONTRACTOR shall retain any and all rights provided either by contract or by law which pertain to the resolution of disputes and protests between the contracting parties.

**ARTICLE VI: Insurance**

A. With respect to performance of work under this AGREEMENT, CONTRACTOR shall maintain, and shall require all of its subcontractors to maintain, insurance as required by Section E “Standard Specifications” of the Contract Documents.

B. This AGREEMENT is further subject to Workers’ Compensation obligations, including, but not limited to, California Labor Code Sections 1860 and 1861 as follows:

CONTRACTOR shall take out and maintain, during the life of this contract, Worker’s Compensation Insurance for all of CONTRACTOR’s employees employed at the site of improvement; and, if any work is sublet, CONTRACTOR shall require the subcontractor similarly to provide Worker’s Compensation Insurance for all of the latter’s employees, unless such employees are covered by the protection afforded by CONTRACTOR. CONTRACTOR and any of CONTRACTOR’s subcontractors shall be required to provide AGENCY with a written statement acknowledging its obligation to secure payment of Worker’s Compensation Insurance as required by Labor Code § 1861; to wit: ‘I am aware of the provisions of Section 3700 of the Labor Code which require every employer to be insured against liability for workers’ compensation or to undertake self-insurance in accordance with the provisions of that code, and I will comply with such provisions before commencing the performance of the work of this contract.’ If any class of employees engaged in work under this AGREEMENT at the site of the Project is not protected under any Worker’s Compensation law, CONTRACTOR shall provide and shall cause each subcontractor to provide adequate insurance for the protection of employees not otherwise protected. CONTRACTOR shall indemnify and hold harmless AGENCY for any damage resulting from failure of either CONTRACTOR or any subcontractor to take out or maintain such insurance.

**ARTICLE VII: Indemnification**

To the fullest extent permitted by law, CONTRACTOR shall, at its sole cost and expense, fully defend, indemnify and hold harmless AGENCY, its authorized representatives and their respective subsidiaries, affiliates, members, directors, officers, employees and agents (collectively, the “Indemnitees”) from and against any and all claims, actions, demands, costs, judgments, liens, penalties, liabilities, damages, losses, and expenses, including but not limited to any fees of accountants, attorneys or other professionals (collectively “Liabilities”), arising out of, in connection with, resulting from or related to, any act, omission, fault or negligence of CONTRACTOR, CONTRACTOR’s Representative, or any of its officers, agents, employees, Subcontractors or Suppliers, or any person or organization directly or indirectly employed by any of them (Collectively, the “Indemnitors”), in connection with or relating to or claimed to be in connection with or relating to the work performed under this AGREEMENT.

If CONTRACTOR is a joint venture or partnership, each venturer or partner shall be jointly and severally liable for any and all of the duties and obligations of CONTRACTOR that are assumed under or arise out of this AGREEMENT. Each of such venturers or partners waives notice of the breach or non-performance of any undertaking or obligation of CONTRACTOR contained in, resulting from or assumed under this AGREEMENT, and the failure to give any
such notice shall not affect or impair such venturer’s or partner’s joint and several liability hereunder.

**ARTICLE VIII: Binding Effect**

AGENCY and CONTRACTOR each binds itself, its partners, successors, assigns, and legal representatives to the other party hereto and to its partners, successors, assigns, and legal representatives in respect of all covenants, agreements, and obligations contained in the Contract Documents. This AGREEMENT is not assignable nor the performance of either party’s duties delegable without the prior written consent of the other party. Any attempted or purported assignment or delegation of any of the rights of obligations of either party without the prior written consent of the other shall be void and of no force and effect.

**ARTICLE IX: Dispute Resolution**

A. In the event of a dispute arising out of the terms of this AGREEMENT, including any action brought to declare the rights granted herein or to enforce any of the terms of this AGREEMENT, the party prevailing in such dispute shall be entitled to all reasonable costs and litigation expenses actually incurred, including fees of attorneys and expert witnesses. Any court action arising out of this AGREEMENT shall be filed in the Los Angeles County Superior Court. Any alternative dispute resolution proceeding arising out of this AGREEMENT shall be heard in the City of Los Angeles or the City of Los Alamitos, California.

B. AGENCY shall have full authority to compromise or otherwise settle any claim relating to this AGREEMENT or any part hereof at any time. AGENCY shall provide timely notification to CONTRACTOR of the receipt of any third-party claim relating to this AGREEMENT. AGENCY shall be entitled to recover its reasonable costs incurred in providing the notification required by this section.

C. This AGREEMENT is further subject to the provisions of Article 1.5 (commencing at Section 20104) of Division 2, Part 3 of the Public Contract Code regarding the resolution of public works claims of less than $375,000. Article 1.5 mandates certain procedures for the filing of claims and supporting documentation by Contractor, for the response to such claims by the Agency, for a mandatory meet and confer conference upon the request of Contractor, for mandatory nonbinding mediation in the event litigation is commenced, and for mandatory judicial arbitration upon the parties’ failure to resolve the dispute through mediation. This AGREEMENT hereby incorporates the provisions of Article 1.5 as though fully set forth herein.

**ARTICLE X: Independent Contractor**

CONTRACTOR is and shall at all times remain as to AGENCY, a wholly independent contractor. Neither AGENCY nor any of its agents shall have control of the conduct of CONTRACTOR or any of CONTRACTOR’s employees, except as herein set forth. CONTRACTOR shall not at any time or in any manner represent that it or any of its agents or employees are in any manner agents or employees of AGENCY.

**ARTICLE XI: Taxes**

CONTRACTOR is responsible for paying all retail, sales and use, transportation, export, import, special or other taxes and duties applicable to, and assessable against any work,
materials, equipment, services, processes and operations incidental to or involved in this AGREEMENT. The CONTRACTOR is responsible for ascertaining and arranging to pay such taxes and duties. Each party to this AGREEMENT acknowledges that no representations, inducements, promises or agreements, orally or otherwise, have been made by any party, or anyone acting on behalf of any party, which are not embodied herein, and that any other agreement, statement or promise not contained in this AGREEMENT shall not be valid or binding. [Public Contract Code § 20103.5]

I, the undersigned, certify that I am aware of the following provisions of California law and that I, or the entity on whose behalf this certification is given, hold a currently valid California contractor’s license as set forth below:

Business & Professions Code § 7028.15:

a) It is a misdemeanor for any person to submit a bid to a public agency to engage in the business or act in the capacity of a contractor within this state without having a license therefor, except in any of the following cases:

(1) The person is particularly exempted from this chapter.

(2) The bid is submitted on a state project governed by Section 10164 of the Public Contract Code or on any local agency project governed by Section 20104 [now § 20103.5] of the Public Contract Code.

b) If a person has been previously convicted of the offense described in this section, the court shall impose a fine of 20 percent of the price of the contract under which the unlicensed person performed contracting work, or four thousand five hundred dollars ($4,500), whichever is greater, or imprisonment in the county jail for not less than 10 days nor more than six months, or both.

In the event the person performing the contracting work has agreed to furnish materials and labor on an hourly basis, “the price of the contract” for the purposes of this subdivision means the aggregate sum of the cost of materials and labor furnished and the cost of completing the work to be performed.

c) This section shall not apply to a joint venture license, as required by Section 7029.1. However, at the time of making a bid as a joint venture, each person submitting the bid shall be subject to this section with respect to his/her individual licensor.

d) This section shall not affect the right or ability of a licensed architect, land surveyor, or registered professional engineer to form joint ventures with licensed contractors to render services within the scope of their respective practices.

e) Unless one of the foregoing exceptions applies, a bid submitted to a public agency by a contractor who is not licensed in accordance with this chapter shall be considered nonresponsive and shall be rejected by the public agency. Unless one of the foregoing exceptions applies, a local public agency shall, before awarding a contract or issuing a purchase order, verify that the contractor was properly licensed when the contractor submitted the bid. Notwithstanding any other provision of law, unless one of the foregoing exceptions applies, the registrar may issue a citation to any public officer or employee of a public entity who knowingly awards a contract or issues a purchase order to a contractor who is not licensed pursuant to this chapter. The amount of civil penalties, appeal, and finality of such citations shall be subject to Sections 7028.7 to 7028.13, inclusive. Any contract awarded to, or any purchase order issued to, as contractor who is not licensed pursuant to this chapter is void.

f) Any compliance or noncompliance with subdivision (e) of this section, as added by Chapter 863 of the Statutes of 1989, shall not invalidate any contract or bid awarded by a public agency during which time that subdivision was in effect.
g) A public employee or officer shall not be subject to a citation pursuant to this section if the public employee, officer, or employing agency made an inquiry to the board for the purposes of verifying the license status of any person or contractor and the board failed to respond to the inquiry within three business days. For purposes of this section, a telephone response by the board shall be deemed sufficient.

Public Contract Code § 20103.5:
In all contracts subject to this part where federal funds are involved, no bid submitted shall be invalidated by the failure of the bidder to be licensed in accordance with the laws of this state. However, at the time the contract is awarded, the contractor shall be properly licensed in accordance with the laws of this state. The first payment for work or material under any contract shall not be made unless and until the Registrar of Contractors verifies to the agency that the records of the Contractors’ State License Board indicate that the contractor was properly licensed at the time the contract was awarded. Any bidder or contractor not so licensed shall be subject to all legal penalties imposed by law, including, but not limited to, any appropriate disciplinary action by the Contractors’ State License Board. The agency shall include a statement to that effect in the standard form of pre-qualification questionnaire and financial statement. Failure of the bidder to obtain proper and adequate licensing for an award of a contract shall constitute a failure to execute the contract and shall result in the forfeiture of the security of the bidder.

The City reserves the right to reject any or all proposals.

The Contract will be awarded, if at all, to the lowest responsible and responsive Bidder determined as provided on the Proposal Form, whose proposal complies with all the requirements prescribed. Such award, if made, will be made within the number of days stated in the proposal form. Refusal or failure to deliver the executed contract, bonds, or insurance in the form provided in the Contract and approved by the Agency’s attorney within the time provided herein shall be cause, at the Agency’s option, for the annulment of the award and forfeiture of the bid security. In such event, the Agency may successively award the Contract to the next lowest responsible and responsive Bidder until a properly executed Contract, bonds, and insurance is obtained, or it may at any time reject all remaining bids and proceed as provided by law. The refusal or failure of a successive lowest responsible and responsive Bidder to execute the Contract may, at the Agency’s option, result in an annulment of the award to that Bidder and the forfeiture of that Bidder’s bid security. The periods of time specified above within which the award of the Contract may be made shall be subject to extension for such further period as may be agreed upon in writing between the Agency and the concerned Bidder.

1-7.2 CONTRACT BONDS

Add the following:

The PAYMENT BOND shall remain in force until thirty-five (35) days after the date of recordation of the Notice of Completion. SECTION 2 – SCOPE OF THE WORK

2-1 WORK TO BE DONE

Add the following paragraphs and subsections to Section 2-1:

Any plan or method of work suggested by the Agency or the Engineer to the Contractor but not specified or required, if adopted or followed by the Contractor in whole or in part, shall be used at the risk and responsibility of the Contractor; and the Agency and the Engineer shall assume no responsibility therefore and in no way be held liable for any defects in the work which may result from or be caused by use of such plan or method of work.

The work includes, but is not necessarily limited to, the following items as shown on the plans and specified in these Special Provisions:

2-2 PERMITS

Delete the first paragraph and replace with the following:
Prior to the start of any work, the Contractor shall apply for and receive any applicable City, County, State, and Federal permits.

2-3 **RIGHT-OF-WAY**

Add the following:

When the Contractor arranges for additional work areas and facilities temporarily required by him/her, he/she shall provide the Agency with proof that the additional work areas and/or facilities have been left in a condition satisfactory to the owner(s) of said work areas and/or facilities prior to acceptance of the work.

2-4 **COORDINATION AND COLLATERAL WORK**

Add the following:

Contractor shall coordinate his/her work so as to minimize disruption to ongoing or scheduled private development projects in the project area.

2-7 **CHANGES INITIATED BY THE AGENCY**

2-7.1 **GENERAL**

Add the following:

All final locations determined in the field, and any deviations from the Plans and Specification, shall be marked in red on the documents to show the as-built conditions. Contractor shall maintain a complete and accurate record of all changes of construction from that shown in these plans and specifications for the purpose of providing a basis for construction record drawings. No changes shall be made without prior written approval of the Engineer. Upon completion of the Project, Contractor shall deliver this record of all construction changes to the Engineer along with a letter which declares that other than these noted changes “the Project was constructed in conformance with the Contract Documents”. Final payment will not be made until this requirement is met.

As the figured dimensions shown on the drawings and in the specifications of the Contract may not in every case agree with scaled dimensions, the figured dimensions shall be followed in preference to the scaled dimensions, and drawings to a large scale shall be followed in preference to the drawings to a small scale. Should it appear that the work to be performed, or any related matter, are not sufficiently detailed or explained in the Contract documents, the Contractor shall apply to the Engineer for such further explanations as necessary, and shall conform to such further explanations provided by the Engineer as part of the Contract to the extent that it is consistent with the terms of the Contract.

Caution: The engineer preparing these plans will not be responsible or liable for unauthorized changes to or uses of these plans. All changes to the plans must be approved in writing by the Engineer.

**SECTION 3 – CONTROL OF THE WORK**

3-3 **SUBCONTRACTORS**

Delete the first paragraph and replace with the following:
All persons engaged in the Work, including Subcontractors and their employees, will be considered employees of the Contractor. The Contractor will be held responsible for their work. The Agency will deal directly and solely with the Contractor and make all payments to the Contractor.

3-5 INSPECTION

Add the following:

The Agency shall inspect for compliance with requirements for 8-hour days and 40-hour weeks on normal working days. The Contractor shall reimburse the Agency, at rates established by the Agency, for any additional inspection, including inspection on legal holidays.

3-10 SURVEY

3-10.1 GENERAL

Add the following:

The Contractor shall be responsible for all survey and layout of work.

The line and grades for construction will be parallel to and offset from the position of the work. From the established lines and grades, the Contractor shall extend the necessary lines and grades for construction of the work and shall be responsible for the correctness of same.

3-12 WORK SITE MAINTENANCE

3-12.1 General

Add the following Subsection:

3-12.1.1 WORK AREA APPEARANCE

The Contractor shall maintain a neat appearance to the Work.

All unsuitable construction materials and rubbish and debris shall be regularly removed from the job site, be transported to a suitable location, and be disposed of in a proper and legal manner.

In any area visible to the public, the following shall apply:

1. Broken concrete and debris developed during clearing and grubbing shall be disposed of weekly.
2. The Contractor shall furnish trash bins for all debris from structure construction. All debris shall be placed in trash bins daily.
3. Forms or false work that are to be re-used shall be neatly stacked concurrent with their removal.
4. Forms and false work that are not to be re-used shall be disposed of with their removal.

3-12.3 NOISE CONTROL
Add the following:

A noise level limit of 85 dba at a distance of fifty (50) feet shall apply to all construction equipment on or related to the job, whether owned by the Contractor or not. The Contractor shall arrange and maintain a secure storage site for all equipment and materials. All equipment and unused materials shall be returned to this site at the end of each work day.

3-12.6 WATER POLLUTION CONTROL

Add the following to Subsection 3-12.6:

3-12.6.1 General

This item shall consist of preparation, implementation and compliance with a storm water pollution prevention plan (SWPPP) for the project, if applicable.

3-12.6.2 BEST MANAGEMENT PRACTICES (BMPs)

All storm water pollution prevention measures shall be in accordance with the submitted SWPPP. In the event circumstances during the course of construction require changes to the original SWPPP, a revised plan shall be promptly submitted to the Agency’s representative in each instance. No responsibility shall accrue to the Agency as a result of the plan or as a result of knowledge of the plan. All work installed by the Contractor in connection with the SWPPP but not specified to become a permanent part of the project shall be removed and the site restored in so far as practical to its original condition prior to completion of construction or when directed by the Agency’s representative.

3-12.6.3 SWPPP Preparation

Contractor shall submit to the engineer a completed and signed SWPPP at the preconstruction conference. The plan may utilize the practices recommended in the California Storm Water Best Management Practices Handbook dated January 2015, available from California Stormwater Quality Association (CSQA), and online at http://www.cabmphandbooks.net/ . The plan shall be consistent with the construction General Permit, issued by the State Water Resources, Control Board, through submittal of the Notice of Intent (NOI).

If construction will occur between October 15 and April 15 (considered as the rainy season per the Agency’s Ordinance), a wet weather erosion control plan must be submitted. Additionally, Best Management Practices (BMPs) implemented during the Agency’s rainy season shall include but not be limited to those appropriate for wet weather conditions.

3-12.6.5 PAYMENT

Unless otherwise indicated in the Special Provision, measurement and payment for Storm Water Pollution Prevention Measures, as described herein, shall be included in the items of Work requiring storm water pollution prevention measures as indicated in the project Special Provisions. Such payment shall be considered full compensation for all labor, materials, tools, and equipment for completion, and implementation and compliance with the SWPPP.

3-13 COMPLETION, ACCEPTANCE, AND WARRANTY
3-13.3 WARRANTY

Add the following:

The Contractor shall warrant and guarantee the entire Work and all parts thereof, including that performed and constructed by subcontractors, and others employed directly or indirectly on the Work, against faulty or defective materials, equipment or workmanship for the maximum period provided by law. In addition thereto, for a period of one (1) year commencing on the date of acceptance of the Work, the Contractor shall, upon the receipt of notice in writing from the Agency, promptly make all repairs arising out of defective materials, workmanship or equipment and bear the cost thereof. The Agency is hereby authorized to make such repairs and the Contractor and Surety shall bear the cost thereof if, ten (10) days after the giving of such notice to the Contractor, the Contractor has failed to make or undertake with due diligence the repairs; provided, however, that, in the case of an emergency where, in the opinion of the Agency, delay could cause serious loss or damage, repairs may be made without notice being sent to the Contractor or Surety, and all expense in connection therewith shall be charged to the Contractor and Surety.

For the purpose of this article “Acceptance of the Work” shall mean the acceptance of the Work by the Agency in accordance with Subsection 3-13.2 but not for the purpose of extinguishing any covenant or agreement or agreement on the part of the Contractor to be performed or fulfilled under this Contract, which has not in fact been performed or fulfilled at the time of such acceptance all of such covenants and agreements, shall continue to be binding on the Contractor until they have been fulfilled.

The effective date of Acceptance of the Work and commencement of the Guarantee shall be the date of acceptance of the Notice of Completion by the City Council.

The following subsection is added to Subsection 3-13 of the SSPWC.

3-13.4 General Guaranty

The Contractor shall remedy any defects in the Work and pay for any damage to other work resulting therefrom, which shall appear within a period of one year from the date of final acceptance of the Work unless a longer period is specified. The Agency will give notice of observed defects with reasonable promptness.

SECTION 4 – CONTROL OF MATERIALS

4-1 GENERAL

Add the following:

The Contractor and all subcontractors, suppliers, and vendors, shall guarantee that the entire Work will meet all requirements of this Contract as to the quality of materials, equipment, and workmanship. The Contractor, at no cost to the Agency, shall make any repairs or replacements made necessary by defects in materials, equipment, or workmanship that become evident within one year after the date of recordation of the Notice of Completion. Within this one year period, the Contractor shall also restore to full compliance with the requirements of this Contract any portion of the Work which is found not to meet those requirements. The Contractor shall defend, indemnify, and hold the Agency, its officers, agents, and employees harmless from claims of any kind due to injuries or damages arising, directly or indirectly, from said defects or noncompliance.
The Contractor shall make all repairs, replacements, and restorations within thirty-five (35) days after the date of the Engineers’ written notice.

If, in the opinion of the Engineer, the defective work is not of sufficient magnitude or importance to make the work dangerous or undesirable, or if, in the opinion of the Engineer, the removal of such work is impractical or will create conditions which are dangerous or undesirable, the Agency shall have the right and authority to retain such work instead of requiring it to be removed and reconstructed, but will make such deductions thereof in the payments due or to become due to the Contractor as the Agency may deem just and reasonable.

4-4 TESTING

Delete the third and fourth sentences of the first paragraph and replace with the following:

Except as elsewhere specified, the Agency will bear the cost of testing material and/or workmanship which meet or exceed the requirements indicated in the Standard Specifications and the Special Provisions. The Contractor shall bear the cost of all other tests, including the retesting of material or workmanship that fails to pass the first test.

4-6 TRADE NAMES

Delete the third sentence of the second paragraph and replace with the following:

Approval of equipment and materials offered as equivalents to those specified must be obtained prior to the opening of bids as set forth in the Instructions to Bidders.

Add the following:

Along with information supplied by the Contractor regarding equivalency of the proposed item, the Contractor shall clearly identify all deviations from the specified item. Deviations discovered by the Engineer after acceptance of an “or equal” item which were not identified by the Contractor with his/her submittal shall be cause for rejection of the “or equal” item. Contractor shall be due no additional compensation in time or money for acceptance or rejection of a proposed “or equal” item and subsequent replacement with the item specified. Contractor shall pay cost to Agency for items requiring more than two submittals and analysis of any shop drawing which requires more than a general review of an “or equal” item.

SECTION 5 – LEGAL RELATIONS AND RESPONSIBILITIES

5-3 LABOR

5-3.1 General

Add the following:

The Contractor shall ensure unlimited access to the job site for all Equal Opportunity Compliance officers.

Every Contractor and Subcontractor shall keep an accurate record showing the name, occupation, and the actual per diem wages paid to each worker employed by him/her in connection with the public work. The record shall be kept open at all reasonable hours to the inspection of the body awarding the Contract and to the Division of Labor Law Enforcement.
Add the following Subsection:

**5-3.4.1 OVERTIME AND SHIFT WORK**

The Contractor may establish overtime and shift work as a regular procedure only with the written permission of the Engineer. Such permission may be revoked at any time. No work other than overtime and shift work established as a regular procedure shall be done between the hours of 4:00 p.m. and 7:30 a.m., nor on Saturdays, Sundays or legal holidays, except such work as is necessary for the proper care and protection of the work already performed or except in case of an emergency.

All costs for overtime inspection, except those occurring as a result of overtime and shift work established as a regular procedure, shall be paid by the Contractor. Overtime inspection shall include inspection required during holidays observed by the AGC and Trade Unions, Saturdays, Sundays, and any weekday between the hours of 4:00 p.m. and 7:30 a.m. Such costs will include but will not necessarily be limited to engineering, inspection, general supervision and other overhead expenses that are directly chargeable to the overtime work. The Agency shall deduct all such charges from payments due the Contractor.

**5-4.2 GENERAL LIABILITY INSURANCE**

Section 5-4.2 is replaced in its entirety as follows:

5-4.2.1 GENERAL. CONTRACTOR and AGENCY agree that Agency, its employees, agents and officials should, to the extent permitted by law, be fully protected from any loss, injury, damage, claim, lawsuit, cost, expense, attorneys fees, litigation costs, defense costs, court costs or any other cost arising out of or in any way related to the performance of this Agreement. Accordingly, the provisions of this indemnity provision are intended by the parties to be interpreted and construed to provide the fullest protection possible under the law to the Agency. CONTRACTOR acknowledges that AGENCY would not have entered into this Agreement in the absence of the commitment of CONTRACTOR to indemnify and protect AGENCY as set forth here.

5-4.2.2 To the full extent permitted by law, CONTRACTOR shall defend, indemnify and hold harmless AGENCY, its employees, agents and officials, from any liability, claims, suits, actions, arbitration proceedings, administrative proceedings, regulatory proceedings, losses, expenses or costs of any kind, whether actual, alleged, or threatened, actual attorneys fees incurred by AGENCY, court costs, interest, defense costs including expert witness fees and any other costs or expenses of any kind whatsoever without restriction or limitation incurred in relation to, as a consequence of, arising out of or in any way attributable actually, allegedly or impliedly, in whole or in part to the performance of this Agreement. All obligations under this provision are to be paid by CONTRACTOR as they are incurred by the AGENCY.

5-4.2.3 Without affecting the rights of AGENCY under any provision of this agreement or this section, CONTRACTOR shall not be required to indemnify and hold harmless AGENCY as set forth above for liability attributable to the sole fault of AGENCY, provided such sole fault is determined by agreement between the parties or the findings of a court of competent jurisdiction.

This exception will apply only in instances where the AGENCY is shown to have been solely at fault and not in instances where CONTRACTOR is solely or partially at fault or in instances where AGENCY’s fault accounts for only a percentage of the liability involved. In those instances, the obligation of CONTRACTOR will be all-inclusive and AGENCY will be indemnified for all liability incurred, even though a percentage of the liability is attributable to the conduct of the AGENCY.

5-4.2.4 CONTRACTOR acknowledges that its obligation pursuant to this section extends to liability attributable to AGENCY, if that liability is less than the sole fault of AGENCY. CONTRACTOR has no
obligation under this Agreement for liability proven in a court of competent jurisdiction or by written agreement between the parties to be the sole fault of AGENCY.

5-4.2.5 The obligations of CONTRACTOR under this or any other provision of this Agreement will not be limited by the provisions of any workers compensation act or similar act. CONTRACTOR expressly waives its statutory immunity under such statutes or laws as to AGENCY, its employees, agents and officials.

5-4.2.6 CONTRACTOR agrees to obtain executed indemnity agreements with provisions identical to those as set forth here in this section from each and every subcontractor, sub-tier contractor or any other person or entity involved by, for, with or on behalf of CONTRACTOR in the performance or subject matter of this Agreement. In the event CONTRACTOR fails to obtain such indemnity obligations from others as required here, CONTRACTOR agrees to be fully responsible according to the terms of this section.

5-4.2.7 Failure of AGENCY to monitor compliance with these requirements imposes no additional obligations on AGENCY and will in no way act as a waiver of any rights hereunder. This obligation to indemnify and defend AGENCY as set forth herein is binding on the successors, assigns or heirs of CONTRACTOR and shall survive the termination of this Agreement or this section.

5-4.2.8 CONTRACTOR agrees to provide insurance in accordance with the requirements as set forth here. If CONTRACTOR uses existing coverage to comply with these requirements and that coverage does not meet the requirements set forth herein, CONTRACTOR agrees to amend, supplement or endorse the existing coverage to do so. The following coverages will be provided by CONTRACTOR and maintained on behalf of AGENCY and in accordance with the requirements set forth herein.

5-4.2.9 Commercial General Liability/Umbrella Insurance. Primary insurance shall be provided on ISO-CGL form No. CG 00 01 11 85 or 88. Total limits shall be not less than two million dollars ($2,000,000.00) per occurrence for all coverages and two million dollars ($2,000,000.00) general aggregate. AGENCY and its officers, agents and employees shall be named as additional insureds using ISO additional insureds endorsement form CG 20 10 11 85 (in no event will AGENCY accept an endorsement form with an edition date later than 1990). Coverage shall apply on a primary non-contributing basis in relation to any other insurance or self-insurance, primary or excess, available to AGENCY or any employee or agent of AGENCY. Coverage shall not be limited to the vicarious liability or supervisory role of any additional insured. Umbrella Liability Insurance (over primary) shall apply to bodily injury/property damage, personal injury/advertising injury, at a minimum, and shall include a “drop down” provision providing primary coverage above a maximum of $25,000.00 self-insured retention for liability not covered by primary policies but covered by the umbrella policy. Coverage shall be following form to any underlying coverage. Coverage shall be provided on a “pay on behalf” basis, with defense costs payable in addition to policy limits. There shall be no cross-liability exclusion. Policies shall have concurrent starting and ending dates.

Each policy of insurance shall contain a clause prohibiting cancellation, modification or lapse without thirty (30) days prior written notice having been given to the City. All insurance policies shall be subject to approval by the City Attorney and certificates evidencing such policies shall be provided to the City concurrently with the filing of all required bonds.

5.4.2.10 Business Auto/Umbrella Liability Insurance. Primary coverage shall be written on ISO Business Auto Coverage form CA 00 01 06 92 including symbol 1 (Any Auto). Limits shall be no less than two million dollars ($2,000,000.00) per accident. Starting and ending dates shall be concurrent. If CONTRACTOR owns no autos, a non-owned auto endorsement to the General Liability policy drafted above is acceptable.
5-4.3 WORKERS’ COMPENSATION INSURANCE

Section 5-4.3 shall be replaced in its entirety as follows:

5-4.3.1 Workers’ Compensation/Employers’ Liability shall be written on a policy form providing workers’ compensation statutory benefits as required by law. Employers’ liability limits shall be no less than one million dollars per accident or disease. Employers’ liability coverage shall be scheduled under any umbrella policy described above. Unless otherwise agreed, this policy shall be endorsed to waive any right of subrogation as respects the AGENCY, its officers, agents or employees.

5-4.3.2 CONTRACTOR and AGENCY further agree as follows:

5-4.3.2.1 This Section supersedes all other sections and provisions of this Agreement to the extent that any other section or provision conflicts with or impairs the provisions of this Section.

5-4.3.2.2 Nothing contained in this Section is to be construed as affecting or altering the legal status of the parties to this Agreement. The insurance requirements set forth in this Section are intended to be separate and distinct from any other provision in this Agreement and shall be interpreted as such.

5-4.3.2.3 All insurance coverage and limits provided pursuant to this Agreement shall apply to the full extent of the policies involved, available, or applicable. Nothing contained in this Agreement or any other agreement relating to the AGENCY or its operations limits the application of each insurance coverage.

5-4.3.2.4 Requirements of specific coverage features or limits contained in this Section are not intended as a limitation on coverage, limits or other requirements, or a waiver of any coverage normally provided by any insurance. Specific reference to a given coverage feature is for purposes of clarification only and is not intended by any party to be all-inclusive, or to the exclusion of other coverage, or a waiver of any type.

5-4.3.2.5 For purposes of insurance coverage only, this Agreement shall be deemed to have been executed immediately upon any party hereto taking any steps that can be deemed to be in furtherance of or towards performance of this Agreement.

5-4.3.2.6 All general or auto liability insurance coverage provided pursuant to this Agreement, or any other agreements pertaining to the performance of this Agreement, shall not prohibit CONTRACTOR, and CONTRACTOR’s agents, officers or employees from waiving the right of subrogation prior to a loss. CONTRACTOR hereby waives all rights of subrogation against AGENCY.

5-4.3.2.7 Unless otherwise approved by AGENCY, CONTRACTOR’s insurance shall be written by insurers authorized to do business in the State of California and with a minimum “Best’s” Insurance Guide rating of “A:VII.” Self-insurance will not be considered to comply with these insurance specifications.

5-4.3.2.8 In the event any policy of insurance required by this Agreement does not comply with these requirements or is canceled and not replaced, AGENCY has the right but not the duty to obtain the insurance it deems necessary and any premium paid by AGENCY will be promptly reimbursed by CONTRACTOR. Upon CONTRACTOR’s failure to make such reimbursement within 30 days of written demand, AGENCY may deduct that sum from any monies due CONTRACTOR hereunder or otherwise.

5-4.3.2.9 CONTRACTOR agrees to provide evidence of the insurance required herein, satisfactory to AGENCY, consisting of certificate(s) of insurance evidencing all of the coverages required and an additional insured endorsement to CONTRACTOR’s general liability and umbrella liability policy (if
any) using ISO form CG 20 10 11 85. Certificate(s) are to reflect that the insurer will provide 30 days’ notice of any cancellation of coverage. CONTRACTOR agrees to require its insurer to modify such certificates to delete any exculpatory wording stating that failure of insurer to mail written notice of cancellation imposes no obligation, and to delete the word “endeavor” with regard to any notice provisions. CONTRACTOR agrees to provide complete copies of policies to AGENCY upon request.

5-4.3.2.10 CONTRACTOR shall provide proof that policies of insurance required herein expiring during the term of this Agreement have been renewed or replaced with other policies providing at least the same coverage. Such proof shall be furnished within 72 hours of the expiration of the coverages.

5-4.3.2.11 Any actual or alleged failure on the part of AGENCY or any other additional insured under these requirements to obtain proof of insurance required under this Agreement in no way waives any right or remedy of AGENCY or any additional insured, in this or any other regard.

5-4.3.2.12 CONTRACTOR agrees to require all subcontractors or other parties hired for this project to provide general liability insurance naming as additional insureds all parties to this Agreement. CONTRACTOR agrees to obtain certificates evidencing such coverage and make reasonable efforts to ensure that such coverage is provided as required here. CONTRACTOR agrees to require that no contract used by any subcontractor, or contracts CONTRACTOR enters into on behalf of AGENCY, will reserve the right to charge back to AGENCY the cost of insurance required by this Agreement. CONTRACTOR agrees that upon request, all agreements with subcontractors or others with whom CONTRACTOR contracts on behalf of AGENCY will be submitted to AGENCY for review. Failure of AGENCY to request copies of such agreement will not impose any liability on AGENCY, its officers, agents, or employees.

5-4.3.2.13 If CONTRACTOR is a Limited Liability Company, general liability coverage must be amended so that the Limited Liability Company and its Managers, Affiliates, employees, agents and other persons necessary or incidental to its operations are insured.

5-4.3.2.14 CONTRACTOR agrees to provide immediate notice to AGENCY of any claim or loss against CONTRACTOR that includes AGENCY as a defendant. AGENCY assumes no obligation or liability by such notice, but has the right (but not the duty) to monitor the handling of any such claim or claims.

5-7  SAFETY

Add the following:

At the pre-construction meeting, the Contractor shall submit his/her complete construction schedule to the Engineer for approval. The Contractor shall submit requests for changes in the schedule to the Engineer for approval at least forty eight (48) hours prior to the scheduled Work.

SECTION 6 – PROSECUTION AND PROGRESS OF THE WORK

6-1  CONSTRUCTION SCHEDULE AND COMMENCEMENT OF THE WORK

Add the following:

Prior to issuing the Notice to Proceed, the Engineer will schedule and conduct a pre-construction meeting with the Contractor to review the proposed construction schedule and delivery dates, arrange utility coordination, discuss construction methods, and clarify inspection procedures.
6-2 PROSECUTION OF THE WORK

Delete the last sentence of first paragraph and replace it with the following:

Should the Contractor fail to take the necessary steps to fully accomplish said purposes, after orders of the Engineer to do so, the Agency may suspend the work in whole or in part, until the Contractor takes said steps at no cost to the Agency.

Add the following:

The Contractor shall submit monthly progress reports to the Engineer by the tenth day of each month. The report shall include an updated construction schedule. Any deviations from the original schedule shall be explained. Progress payments will be withheld pending receipt of any outstanding reports.

6-3 TIME OF COMPLETION

Add the following subsections:

6-3.3 WORKING DAY

Add the following:

The Contractor’s activities shall be confined to the hours between 7:30 a.m. and 4:00 p.m. Monday through Friday. In addition, the Contractor shall not perform any Work on Saturday, Sunday, or on Agency-designated holidays. Agency-designated holidays are listed in TABLE 1 – AGENCY-DESIGNATED HOLIDAYS below. Deviation from these hours will be permitted upon approval of the Engineer, except in emergencies involving immediate hazard to persons or property.

Deviations from these hours will not be permitted without the prior consent of the Engineer, except in emergencies involving immediate hazard to persons or property. In the event of either a requested or emergency deviation, inspection service fees will be charged against the Contractor. Service fees will be calculated at overtime rates including benefits, overhead, and travel time; and will be deducted from the amounts due the Contractor.

Failure of the Contractor to adhere to working day requirements will result in damages being sustained by the City. Such damages are, and will continue to be, impracticable and extremely difficult to determine. For each OCCURRENCE of a working day or hours violation, as provided herein, the Contractor shall pay to the Agency, or have withheld from monies due to it, the sum of $1,000.00.

EXECUTION OF THE CONTRACT SHALL CONSTITUTE AGREEMENT BY THE AGENCY AND CONTRACTOR THAT $1,000 PER VIOLATION IS THE MINIMUM VALUE OF THE COST AND ACTUAL DAMAGES CAUSED BY FAILURE OF THE CONTRACTOR TO LIMIT PERFORMANCE OF THE WORK BETWEEN THE ALLOTTED TIMES, THAT SUCH SUM SHALL NOT BE CONSTRUED AS A PENALTY, AND THAT SUCH SUM MAY BE DEDUCTED FROM PAYMENTS DUE THE CONTRACTOR IF SUCH DELAY OCCURS.

6-4 DELAYS AND EXTENSION OF TIME

6-4.1 GENERAL

Add the following Subsections:

6-4.1.1 Notice of Delays
Whenever the Contractor foresees any delay in the prosecution of the work, and in any event immediately upon the occurrence of any delay which the Contractor regards as unavoidable, he/she shall notify the Engineer in writing of the probability of the occurrence of such delay and its cause so that the Engineer may take immediate steps to prevent, if possible, the occurrence or continuance of the delay, or, if prevention is not possible, may determine whether the delay is to be considered avoidable or unavoidable, how long it continues, and to what extent it will delay the prosecution and completion of the work. It will be concluded that any and all delays which have occurred in the prosecution and completion of the work have been avoidable delays, except such delays as shall have been called to the attention of the Engineer at the time of their occurrence and found by him/her to have been unavoidable. The Contractor shall make no claims for any delay not called to the attention of the Engineer at the time of its occurrence as an unavoidable delay.

6-4.1.2 Avoidable Delays
Avoidable delays in the prosecution or completion of the work shall include all delays which in the opinion of the Engineer would have been avoided by the exercise of care, prudence, foresight, and diligence on the part of the Contractor of his/her subcontractors. The following shall be considered avoidable delays within the meaning of the contract: 1) Delays in the prosecution of parts of the work which may in themselves be unavoidable but do not necessarily prevent or delay the prosecution of other parts of the work or the completion of the whole work within the time herein specified; 2) Reasonable loss of time resulting from the necessity of submitting samples of materials and drawings to the Engineer for approval and from performing tests of materials, measurements, and inspections; 3) Reasonable interference of other contractors employed by the Agency and/or other contractors working in the area which do not necessarily prevent the completion of the whole work within the time agreed upon; 4) Delays resulting from inaccurate or incomplete shop drawing submittals; and 5) Interference of other contractors performing concurrent work.

6-4.1.3 Extension of Time
In case the work is not completed in the time specified, including such extensions of time as may have been granted for unavoidable delays, the Contractor will be assessed damages for delay in accordance with Paragraph 6-9.1. The Agency, however, shall have the right to grant an extension of time for avoidable delay if it is deemed in his/her best interest to do so. During such extension of time, the Contractor will be charged for engineering and inspection services and other costs as provided in Paragraph 6-4.2.1 but will not be assessed damages pursuant to Paragraph 6-9.
Add the following Subsection:

6-4.2.1 Compensation to Agency for Extension of Time

Compensation for extension of time for avoidable delay granted pursuant to Paragraph 6-4.1.3 shall be the actual cost to the Agency for engineering, inspection, general supervision, and overhead expenses which are directly chargeable to the work and which accrue during the period of such extension, except that the cost of final inspection and preparation of the final estimate shall not be included.

6-4.4 WRITTEN NOTICE AND REPORT

Delete the text of Section 6-4.4 and replace it with the following:

Requests for an extension of time must be delivered to the Agency within ten (10) consecutive calendar days following the date of the occurrence that caused the delay. The request must be submitted in writing and must state the cause of the delay, the date of the occurrence causing the delay, and the amount of additional time requested. This shall be included as part of a revised construction schedule required in Section 6-1. Requests for extensions of time shall be supported by all evidence reasonably available or known to the Contractor, which would support the extension of time requested. Requests for extensions of time, which are not received within the time specified above, shall result in the forfeiture of the Contractor’s right to receive any extension of time requested.

If the Contractor is requesting an extension of time because of weather, he/she shall supply daily written reports to the Agency’s representative describing such weather, and the work that could not be performed that day because of such weather or conditions resulting therefrom and that he/she otherwise would have performed.

6-9 LIQUIDATED DAMAGES

Delete the title and text of Section 6-9 and replace with the following:

6-9 FORFEITURE DUE TO DELAY

The Contractor shall complete all or any designated portion of the Work called for under the Contract within the time set forth in Part C (Proposal) of these Specifications.

In accordance with Government Code 53069.85, and all other applicable law, the Contractor agrees to forfeit and pay the Agency the amount of Four Hundred Dollars ($400.00) per day for each and every day of unauthorized delay beyond the completion date, which shall be deducted from any monies due the Contractor. This payment shall be considered liquidated damages. Contractor agrees that such liquidated damages are reasonable under the circumstances existing at the time of execution of the contract, that such liquidated damages are to compensate Agency for losses that are difficult to measure and that such damages are not a penalty.

Failure of the Contractor to perform any covenant or condition contained in the Contract Documents within the time period specified shall constitute a material breach of this Contract entitling the Agency to terminate the Contract unless the Contractor applies for, and receives, an extension of time in accordance with the procedures set forth in Section 5-5.
Failure of the Agency to insist upon the performance of any covenant or conditions within the time period specified in the Contract Documents shall not constitute a waiver of the Contractor’s duty to complete performance within the designated periods unless the Agency has executed a waiver in writing.

The Agency’s agreement to waive a specific time provision or to extend the time for performance shall not constitute a waiver of any other time provision contained in the Contract Documents.

Failure of the Contractor to complete performance promptly within the additional time authorized in a waiver or extension of time agreement shall constitute a material breach of this Contract entitling the Agency to terminate this agreement.

The Contractor shall not be deemed in breach of this Contract and no forfeiture due to delay shall be made because of any delays in the completion of the Work due to unforeseeable causes beyond the control and without the fault or negligence of the Contractor provided the Contractor requests an extension of time in accordance with the procedures set forth in Section 5-5. Unforeseeable causes of delay beyond the control of the Contractor shall include acts of God, acts of a public enemy, acts of the government, acts of the Agency, or acts of another contractor in the performance of a contract with the Agency, fires, floods, epidemics, quarantine restrictions, strikes, freight embargoes, and weather, or delays of subcontractors due to such causes, or delays caused by failure of the owner of a utility to provide for removal or relocation of existing utility facilities. Delays caused by actions or neglect of Contractor or his/her agents, servants, employees, officers, subcontractors, directors, or of any party contracting to perform part of all of the Work or to supply any equipment or materials shall not be excusable delays. Excusable delays (those beyond the Contractor’s control) shall not entitle the Contractor to any additional compensation. The sole recourse of the Contractor shall be to seek an extension of time.

Add the following Subsections:

6-12 DISPUTES AND CLAIMS

6-12.1 GENERAL

Any and all decisions made on appeal pursuant to this Subsection 6-12 shall be in writing. Any “decision” purportedly made pursuant to this Subsection 6-12 that is not in writing shall not be binding upon the Agency and should not be relied upon by the Contractor.

Nothing in this subsection shall be considered as relieving the Contractor from his/her duty to file the notice required under Subsection 6-13 or other duties required by the Contract Documents.

6-12.2 ADMINISTRATIVE REVIEW

Request for review made to the Construction Inspector or Project Engineer may be either oral or written. Request for review made to the City Engineer shall be made in writing with supporting evidence attached.

The Contractor shall submit each request for review within twenty-one (21) calendar days of receipt of the decision that he/she is requesting.

Prior to demand for arbitration, the Contractor shall exhaust his/her administrative remedies by attempting to resolve his/her dispute or claim with Agency’s staff in the following sequence:

1. Project Engineer
2. City Engineer
Should the Project Engineer fail to address the Contractor’s request for review of a disputed decision within fourteen (14) calendar days after receiving such request, the Contractor may proceed directly to the City Engineer. At the option of the Agency, the person to whom the request for review is directed may elect to take such request to a higher level and the Contractor’s request shall be deemed to be properly submitted to such higher level.

The City Engineer shall address disputes or claims within twenty eight (28) calendar days after receiving such request and all necessary supporting data. The City Engineer’s decision on the dispute or claim shall be the Agency’s final decision.

### 6-12.3 ARBITRATION

Claims and disputes arising under or related to the performance of the contract shall be resolved in arbitration unless the Agency and the Contractor agree in writing, after the claim or dispute has arisen, to waive arbitration and to have the claim or dispute litigated in court of competent jurisdiction. Arbitration shall be conducted, to the extent feasible, pursuant to Chapter 3 (Sections 301-393, inclusive) of Division 2 of Title 1 of the California Code of Regulations except that references therein to the “State Contract Act” shall be construed to mean “applicable law” and “Public Agency”, or “Department” shall be construed to mean “Agency” as defined in Subsection 1.2. The arbitration decision shall be decided under and in accordance with California law, supported by substantial evidence, and in writing, contain the basis for the decision, findings of fact, and conclusions of law.

Arbitration shall be initiated by a Demand for Arbitration. The Contractor shall request a Demand for Arbitration not later than one hundred eighty (180) calendar days after the date of the final written decision of the Agency on the claim or dispute.

All contracts valued at more than $15,000 between the Contractor and his/her Subcontractors and Suppliers shall include a provision that the Subcontractors and Suppliers shall be bound to the Contractor to the same extent that the Contractor is bound to the Agency by all terms and provisions of the Contract, including these arbitration provisions.

### 6-13 NOTICE OF POTENTIAL CLAIM

The Contractor shall not be entitled to the payment of any additional compensation for any cause, including any act, or failure to act, by the Engineer, or the happening of any event, thing or occurrence, unless the Contractor shall have given the Engineer due notice in writing, of the potential claim as hereinafter specified, provided, however, that compliance with this Subsection 6-13 shall not be a prerequisite as to any claim that is based on differences in measurements or errors of computation as to the Contract quantities.

Additionally, this Subsection 6-13 shall not supersede the specific notice and protest requirements of Subsection 2-9 “Changed Conditions” and Subsection 6-3.2 “Contract Time Accounting” respectively.

A written notice of potential claim shall set forth the reasons the Contractor believes additional compensation will or may be due, the nature of the costs involved, and, insofar as possible, the amount of the potential claim. A notice as above required must have been given to the Engineer prior to the time that the Contractor shall have performed the Work giving rise to the potential claim for additional compensation, if based on an act or failure to act by the Engineer, or in all other cases within fifteen (15) days after the happening of the event, thing or occurrence giving rise to the potential claim.

It is the intention of this Subsection 6-13 that differences between the parties arising under and by the virtue of the Contract be brought to the attention of the Engineer at the earliest possible time in order that such matters may be settled, if possible, or other appropriate action promptly taken. The Contractor
hereby agrees that he/she shall have no right to additional compensation for any claim that may be based on any such act, failure to act, event, thing or occurrence for which no written notice of potential claim as herein required was filed.

SECTION 7 – MEASUREMENT AND PAYMENT

7-3 PAYMENT

7-3.2 PARTIAL AND FINAL PAYMENT

Delete the last paragraph of this subsection and replace with the following:

The closure date for period progress payments will be the twenty-fifth day of each month. Authorization to pay is commonly received on the second Wednesday of the following month. The Agency requires four to six weeks to review all progress payments, issue payment checks, present progress payment to Council for approval, and release payment to contractor. However, payments will be withheld pending receipt of any outstanding reports required by the Contract Documents. In addition, the final progress payment will not be released until the Contractor returns the control set of plans and specifications showing the as-built conditions.

The full five (5) percent retention will be deducted from all payments. The final retention will be authorized for payment thirty five (35) days after the date of recordation of the Notice of Completion.

The Contractor may substitute securities for any monies withheld by the Agency to ensure performance under the Contract as provided in Public Contract Code Sections 10263 and 22300.

7-3.3 DELIVERED MATERIALS

Delete the text of section 7-3.3 and replace with the following:

7-3.4 Mobilization

Mobilization and demobilization shall consist of preparatory work and operations including, but not limited to, those necessary for the movement of personnel, equipment, materials, and incidentals to the project site necessary for work on the project and for all other work and operations which must be performed or costs incurred including bonds, insurance, and financing prior to beginning work on the various contract items on the project site. Mobilization shall also include the time, materials, and labor to move the necessary construction equipment to and from the site, supervisory time on the job by the Contractor’s personnel to keep the construction site in a safe condition, and all other related work as required at all times and for all non-working days during the construction period. The Contractor is responsible for securing an adequate storage site for equipment and materials.

Contractor shall provide traffic control per California Temporary Traffic Control Handbook. Contractor must maintain access for visitors to the properties. One driveway must always remain open and accessible. The cost for traffic control shall be considered as included in the cost for mobilization.
Payment for Mobilization and Demobilization shall be included in the Lump Sum (LS) Price basis and shall be considered full compensation and include but not be limited to, obtaining all business licenses and permits, as required for the entire project, from all related agencies, including, but not limited to, utility companies, private and public agencies and the City of Los Alamitos; and complying with the requirements specified in those licenses and permits; coordination, field office facility, implementation of Best Management Practices, and incidentals necessary to perform all related items of work. 80% of the bid price for Mobilization and Demobilization will be disbursed at completion of Mobilization and 20% will be disbursed at completion of Demobilization.
0-1 STANDARD SPECIFICATIONS

Except as hereinafter amended, the provisions of the 2018 Edition of the “Green Book,” Standard Specifications for Public Works Construction (“SSPWC”), with the latest Supplements, prepared and promulgated by the Southern California Chapters of the American Public Works Association and the Associated General Contractors of America, and these modifications thereto are adopted as the “Standard Specifications” for the Agency. 211-1.2 Field Density.
Field density tests will be made by the Engineer during the course of construction at the expense of the CITY. If field density tests indicate that any portion of the compacted subgrade has density lower than that specified, the Contractor shall rework that portion until the specified density is obtained. Retest of areas which have failed compaction will be performed by the Engineer at the Contractor's expense.
PART 3 - CONSTRUCTION METHODS

This item shall consist of a Bituminous Surface Pavement Tack Coat composed of a blend of elastic Polymer modified asphalts, thermoplastic resins and digested whole tire rubber. The Material is applied at 325 to 425 degrees F with a distributor truck at typical application rates of 0.08 to 0.15 gal/square yard. The exact application rate will be determined by surface conditions at time of application.

Paving asphalt (also referred to as tack coat) shall be Thermoplastic Polymer Modified No Track Tack, for ARHM and AC overlay and where specified for slurry seals, and SS 1h otherwise. The Thermoplastic Polymer Modified No Track Tack shall meet the following criteria:

The tack coat shall be applied to the existing pavement on the areas to receive the AC where specified. The Engineer shall approve the exact rate and number of applications. Two heavy coats of SS 1h shall be applied to vertical joints for patching. All contact surfaces with new asphalt shall be painted tack coat immediately before the asphalt concrete is placed.

The tack coat shall be applied as specified in Subsection 302-5.4 of the Standard specifications and these special Provisions. Thermoplastic Polymer Modified No Track Tack shall be applied only when the existing surface is dry and the atmospheric temperature is 50 deg. F and rising. NO material shall be applied when rain is imminent.

Paving of overlay shall not proceed until the tack coat has stiffened sufficiently to not stick to truck tires. Upon occurrence of tracking of tack coat, paving shall cease, except remaining material in the hopper shall be used, and the tack shall be allowed time to setup.

The Thermoplastic Polymer Modified No Track Tack shall be heated slowly to 325-425 degrees F. At no time shall the product be heated above 450 degrees F. The
product shall be applied through a distributor truck equipped with a heating unit and shall maintain tack coat at or above 325 degrees F. It shall be equipped with a full circulating spreader bar and pumping system capable of applying the Thermoplastic Polymer Modified No Track Tack material within +0.01 gallons per square yard tolerance of specified application rate and give uniform covering of the surface to be treated. The distributor shall also include a tachometer, pressure gauge, and volume measuring device and thermometer. The application rates shall be 0.15 gallons per square yard for all ARHM or AC overlay and slurry seal (where specified) or as otherwise directed by the Engineer. If the pavement temperature reaches over 130 degrees F, the application rate will be reduced to minimum 0.08 gallons per square yard on overlay applications.

Paving asphalt shall not be applied until the preparation of the existing surface has been completed and thoroughly cleaned, and then only so far in advance of placing the asphalt concrete overlay as permitted by the Engineer. Slurry seal shall be applied on the same day as receiving tack coat. The Thermoplastic Polymer Modified No Track Tack shall not be left exposed overnight. Immediately in advance of placing the overlay, additional tack coat shall be applied as directed by the Engineer, to areas where the tack coat has been destroyed or otherwise rendered ineffective, and no additional compensation will be allowed for such work.

Existing concrete curb faces and all concrete not to be overlaid shall be protected against disfigurement from the asphalt tack coat. Residue of the material shall be removed from concrete surfaces to return the concrete to its original condition unless otherwise directed by the Engineer.

Excessive tracking of tack coat onto adjacent pavements will require immediate clean-up. If significant amounts of asphalt tack coat are tracked onto existing adjacent pavements, the contractor shall be required to clean it off to the satisfaction of the Engineer or provide a slurry seal to restore the pavement at their own expense. This shall apply to the entirety of asphalt haul routes to and from the project sites.

On all vertical joins of AC patching, apply SS-1H tack coat uniformly in two coats of .20 gallons per square yard each with full "break" in between, or .20 gallons per square yard PG 64-10 uniformly in one coat. Tack coat shall not be applied when the temperature of the surface to be tacked is below 40°F in the shade. A tack coat shall be applied at the following:

1. Pavement joins;
2. Areas where new pavement meets existing pavements;
3. Areas where lift sections from pavement placed on different days meet;
4. Trenches;
5. Areas where existing striping has been sandblasted; and
6. Raised valves and manhole covers.

Measurement and Payment - Add the following
Full compensation for furnishing and applying tack coat shall be considered as included in the contract price paid per ton of Asphalt Concrete Paving and no separate payment will be made therefor.

302-5.5 Distribution and Spreading.

Each paving machine used will require a paving foreman for each machine along with a full set of rollers as specified and two rakers and one shoveler laborer at a minimum.

302-5.6 Rolling.

Rolling along a joint shall be such that the widest part of the roller is on the hot side of the joint.

Rubber tire rollers shall be used on any leveling course.

Three rollers shall be provided for installation of AC greater than 200 tons per hour, regardless of thickness.

302-5.7 Joints.

Join lines between successive runs shall be within 6 inches of lane lines or center of street or a minimum of 14 feet outside of the outer most lane line or center of street, or 5 to 6 feet from a lane line or center of street and within a lane. The joint pattern for all pavement layers shall be submitted in writing to the Engineer for review and approval 2 weeks in advance of the first lift of pavement to be placed. No exceptions to the specified requirements for joints shall be anticipated, and the Engineer’s decision shall be final.

302-5.8 Manholes (and other structures)

The Contractor shall mark, as approved by the Engineer, all survey monuments, manholes, valves, substructures, or other items that are visible on the surface and will be covered by his operations. This shall be completed prior to the start of that operation and approved by the Engineer.

Existing traffic striping, pavement markings, and curb markings shall also be considered as existing improvements and the Contractor shall repaint or replace, at the Contractor’s expense, such striping or markings (except for traffic striping and pavement markings within the limits of the Work) if damaged or if their reflectivity is reduced due to construction operations.

400-3 PAYMENT

Add the following:

All costs to the Contractor for protecting, removing, restoring, relocating, repairing, replacing, or reestablishing existing improvements shall be included in the Bid.

SECTION 401 – REMOVAL

401-2 ASPHALT CONCRETE PAVEMENT

Bituminous pavement shall be removed to neatly sawed edges. Saw cuts shall be to a minimum depth of 3 inches. Where only the surface of existing bituminous pavement is to be removed, the method of removal shall be approved by the Engineer, and a minimum laying depth of 1 inch of new pavement material shall be provided at the join line. Where bituminous pavement adjoins a trench, the edges adjacent to the trench shall be saw cut to neat straight lines before resurfacing to ensure that all areas to be resurfaced are accessible to the rollers used to compact the subgrade or paving materials.

Bituminous pavement on curb and gutter, sidewalk or drive approaches shall be removed by heating with a torch to soften the pavement without creating smoke. Softening shall be performed until the bituminous material can be easily scraped away down to the underlying PCC surface. The blade used for scraping shall be maintained straight along its edge and clean. Bituminous material shall be scraped in this manner until it is completely removed.

401-3 CONCRETE AND MASONRY IMPROVEMENTS.

401-3.1 Concrete Pavement.
Concrete pavement shall be removed to neatly sawed edges. Saw cuts shall be made to a minimum depth of 3 inches. If a saw cut in concrete pavement falls within 3 feet of a construction joint, cold joint, expansion joint or edge, the concrete shall be removed to the joint or edge. The edges of existing concrete pavement adjacent to trenches, where damaged subsequent to saw cutting of the pavement, shall again be saw cut to neat straight lines for the purpose of removing the damaged pavement areas.

Concrete shall be removed to neatly sawed edges with saw cuts made to a minimum depth of 1½-inches. Concrete sidewalk, or driveway to be removed shall be neatly sawed in straight lines either parallel to the curb or at right angles to the alignment of the sidewalk. No section to be replaced shall be smaller than 30 inches in either length or width. If the saw cut in sidewalk, access ramp, or driveway would fall within 30 inches of a construction joint, expansion joint, or edge, the concrete shall be removed to the joint or edge, except that where the saw cut would fall within 12 inches of a score mark, the saw cut shall be made in and along the score mark. Curb and gutter shall be sawed to a depth of 1½-inches on a neat line at right angles to the curb face.

402 UTILITIES

Add the following Subsections:

402-1.1.1 MANDATORY NOTIFICATION PRIOR TO EXCAVATION

The Contractor’s attention is direct to Section 4215.5 through 4217 of the Government Code of the State of California. This requires that two (2) working days prior to commencing any excavation “Underground Service Alert of Southern California” (USA) shall be notified by phone, toll free 1-800-227-2600, for the assignment of an Inquiry Identification Number.

Construction Contractor shall contact all utility companies (e.g. gas company, electric company, telephone company, cable company, water company, refuse collectors, and Los Angeles County Department of Public Works) at least five (5) working days prior to commencing work and shall verify the location of any known utilities and determine whether or not a representative of each company will be present during excavation:

Additionally, the Contractor shall also notify local entities of his/her schedule fourteen (14) days prior to commencing work, including, local law enforcement agencies, the Post Office, Public Schools, and Bus Companies.

No excavation shall commence unless the Contractor has obtained the USA Inquiry Identification Number.

402-1.1.2 ACCURACY OF UTILITIES INFORMATION

The locations of known existing major utilities, whether above ground or underground, are indicated on the plans. Information and data reflected in the Contract Documents with respect to underground and above ground utilities at or contiguous to the site is based upon information and data furnished to the City and the Engineer by the owners of such utilities, and the City does not assume responsibility for the accuracy or completeness thereof. The Contractor shall take all
possible precautions for the protection of unforeseen utility lines to provide for uninterrupted service and to provide such special protection as may be necessary.

The Contractor shall be responsible for determining the location and depth of all underground facilities, including service connections, which may affect or be affected by his/her operations and he/she shall include the cost to pothole all utilities within the limits of work in his/her bid. If an existing utility line, which has been marked by Underground Service Alert or is shown on the plans, is damaged by the Contractor, the Contractor shall repair the line and bear the cost thereof.

Contractor shall be aware that electrical conduits between street and traffic lights may exist beneath pavement and/or sidewalk in areas where such lights are in place and that said conduits are not shown on these plans.

In the event that the Contractor damages any existing utility lines that are not shown, shown incorrectly or the locations of which are not made known to the Contractor prior to excavation, a telephone call and written report shall be made immediately to the Utility owner, the Engineer, and to the City. If directed by the City, the Contractor shall make repairs under the provisions for changes and extra work contained in SECTION 3 – CONTROL OF THE WORK of the SSPWC Standard Specification.

402-2 PROTECTION

Delete the following text from the last sentence of the fourth paragraph of Section 402-2: “if located in accordance with 402-1”.

402-4 RELOCATION

Delete the second sentence of the third paragraph and replace with the following:

When not otherwise required by the plans and specifications and when directed by the Engineer, the Contractor shall arrange for the relocation of service connections as necessary between the meter and property line, or between the meter and limits of construction.

402-5 DELAYS DUE TO UTILITY CONFLICTS

The Contractor will be required to maintain at least one lane of traffic in each direction through the project area at all times in a manner satisfactory to the Engineer in the form of an engineered traffic control plan. The engineered traffic control plans must be signed by a California registered civil and/or traffic engineer. The plan is a required submittal for review at the pre-construction meeting.

All traffic control on the project shall be implemented by a sub-contractor who specializes in Traffic Control and is approved by the City Engineer.

All drop-offs on the pavement over 1 inch in height that are perpendicular to the direction of traffic, including driveway approach, and will remain overnight shall be ramped with temporary AC pavement. The cost to construct temporary AC pavement shall be included in price paid for other items of work, and no additional payment thereof.

All open trenches shall be covered with non-skid steel plates or temporary asphalt pavement before and after work hours, unless otherwise directed by the Engineer.

Add the following Subsection:

600-1.1 Parking Restrictions and Posting for Tow Away

No Parking signs, posted by the Contractor, shall be of heavy card stock and not less than 1.75 square feet of surface area on the face. Background color shall be white and letters shall be printed in red water resistant ink except day, date, and time of restriction may be printed in black water resistant ink. The signs shall be printed with the words “Tow Away” and “No Parking” with a character height of not less than 2.75 inches and a stroke width of not less than 0.5 inches. The day, dated, and time of the particular restriction shall be printed or attached below the above mentioned wording in characters of not less than 2.0 inches in height and 0.4 inches in stroke width. The day of the week shall be written out or properly abbreviated with three to four letters; date or dates or restriction shall be listed completely; the beginning and ending times shall be clearly listed on the sign.

Signs shall be mounted such that the wording “No Parking” are at an elevation at least three feet above the adjacent flowline. Signs may be tied with string to trees and power poles, taped to existing sign poles, or mounted to stakes or barricades as provided by the Contractor. The signs shall be placed as needed to control the parking of cars within the construction zone; signs shall be placed at intervals of 75 feet or less along each side of the roadway.

Signs shall be posted and maintained by the Contractor for a period of 72 hours prior to the restrictions becoming effective. The Contractor may only post parking restrictions that are effective for the duration of the Work. Upon completion of the Work, the Contractor shall promptly and completely remove and dispose all signs, stakes, and barricades. The Contractor shall promptly reset or replace all damaged or defective signs.
The Contractor shall be fully responsible for the adequate removal of all parked cars. The Contractor shall coordinate the removal of all vehicles with the Sheriff Department. The Contractor shall notify the Sheriff Communications Center upon posting of the parking restrictions for a particular street. For removal of parked vehicles, the Contractor shall notify the Sheriff Communications Center not less than two hours prior to the needed removal, stating the address nearest the parked vehicle, make, model, color and license number. The City shall not be responsible for any delay or additional costs associated with the removal of parked cars that obstruct the construction operation.

If a vehicle owner successfully contests a towing citation in court, and their citation is dismissed for causes related to the Contractor’s failure to perform the requirements of this section, the Contractor shall reimburse the City for the cost of any claims associated with the towing citation.

DEVIATIONS FROM THE REQUIREMENTS OF THIS SUBSECTION WILL BE PERMITTED ONLY ON PRIOR CONSENT OF THE ENGINEER. FAILURE OF THE CONTRACTOR TO ADHERE TO THE REQUIREMENTS OF THIS SUBSECTION, OR FAILURE OF THE CONTRACTOR TO COMPLETE HIS DAILY SCHEDULE ONCE “TEMPORARY NO PARKING” SIGNS HAVE BEEN POSTED, WILL RESULT IN DAMAGES BEING SUSTAINED BY THE CITY. SUCH DAMAGES ARE, AND WILL CONTINUE TO BE, IMPRACTICABLE AND EXTREMELY DIFFICULT TO DETERMINE. FOR EACH OCCURRENCE OF A VIOLATION, AS PROVIDED HEREIN, THE CONTRACTOR SHALL PAY TO THE AGENCY, OR HAVE WITHHELD FROM MONIES DUE TO IT, THE SUM OF $1,000.00.

EXECUTION OF THE CONTRACT SHALL CONSTITUTE AGREEMENT BY THE AGENCY AND CONTRACTOR THAT $1,000.00 PER VIOLATION IS THE MINIMUM VALUE OF THE COST AND ACTUAL DAMAGE CAUSED, THAT SUCH SUM SHALL NOT BE CONSTRUED AS A PENALTY, AND THAT SUCH SUM MAY BE DEDUCTED FROM PAYMENTS DUE THE CONTRACTOR.

600-1.2 STREET CLOSURE, DETOURS, BARRICADES

Add the following:

All traffic control barricades, signs and devices used by the Contractor shall, as a minimum, conform to the “Manual of Traffic Controls for Construction and Maintenance Work Zones,” adopted by and in current use by the State of California, Department of Transportation. Channelization devices shall be spaced no greater than fifty (50) feet apart. The Contractor shall take additional precautions as he/she may find necessary under the circumstances.

Should the Contractor fail to provide adequate traffic control or safety barricades, and in the event a responsible individual cannot be located or refuses to perform, the Agency will at its option place needed devices or engage a private firm to place and maintain said barricades, which will be charged to the Contractor directly.

Temporary traffic channelization shall be accomplished with delineators. Temporary striping will not be allowed unless specifically permitted by the Engineer. The Contractor shall prepare any plans that may be required for temporary striping to the satisfaction of the Engineer. In no event will temporary striping be allowed on finished pavement surfaces which are to remain.

Full street closures will not be allowed prior to City Council approval.

A. Definitions

Where “as directed”, “as required”, “as permitted”, “approve”, “acceptance”, or words of similar import are used, it shall be understood that the direction, requirement, permission, approval or acceptance by the City of Los Alamitos is intended unless otherwise stated. As used herein, “provide” shall be understood to mean “provide complete”, in total. The word “site” as used hereinafter shall be understood to mean the location receiving the service. The use of the word “Contractor” shall be held to mean the Contractor and/or any person employed by them and working under the agreement to the awarded Contractor.

This work consists of tree trimming for traffic clearance, palm trimming, and/or trimming and shaping of trees as specified in the Professional Services Agreement scope of work and/or Requests for Proposal. All pruning methods shall comply with the ISA and ANSI Standards.

B. Work Quality

1. All tree trimming shall comply with good arboreal practice for the particular species of trees being trimmed. The Contractor shall be consistent with the pruning standards as adopted by the International Society of Arboriculture, ANSI A-300 Part 1) 2008 accompanied by Best Management Practices, Tree Pruning (Revised 2008). The Contractor shall also meet the requirements of the American National

2. Designated City staff shall determine if the Contractor has met all trimming requirements and payment shall not be made for trimming that is not in accordance with the above standards. The Contractor shall be deemed in agreement default, if they consistently fail to comply with the aforementioned standards.

C. Standards

1. Prior to beginning the work, the Contractor shall review with the designated City staff the various methods, tools, and work scheduling to be used on the project. Unless otherwise indicated, tree trimming shall include, but not be limited to, accepted pruning activities.

2. Any structural weakness, decayed trunk or branches, or split crotches or limbs discovered by the Contractor during the course of trimming shall be reported to the Public Works Superintendent for determination of the appropriate course of action.

3. The use of “lopping shears” shall be specifically approved by the Designated City staff.

4. Daily tree trimming operations shall commence no earlier than 8:30 AM and shall be completed each day no later than 5:00 PM.

5. Limbs one inch (1”) in diameter or greater shall be precut to prevent splitting. When there is a chance of bark tearing at the crotch, remove large limbs with three cuts. Make the first cut on the underside of the branch one foot (1’) to two feet (2’) from the crotch. The undercut should be at least one-third (1/3) of the diameter. Make the second cut one-inch (1”) to three inches (3”) further from the crotch than the first. The final cut is made at the crotch in a manner to favor the earliest possible covering of the wound by callus growth. Cuts shall not be made so large that they will prevent sap flow. All cut branches three and one-half inches (3 ½”) or larger in diameter shall be lowered by proper ropes to the ground. Any damage caused by dropping limbs shall be repaired within three (3) days at the Contractor's expense and to the satisfaction of the Public Works Superintendent. All debris resulting from tree trimming operations shall be removed from the work site on a daily basis.

6. Removal of all vines entwined in the tree or around its trunk, and the removal of sucker growth on tree trunks is required on all trees.

D. Tool Sanitation

On all trees, including palms, known or suspected to be diseased, pruning tools and cut surfaces shall be disinfected with a ten (10) percent chlorine bleach
solution after each cut and between trees where there is danger of transmitting the disease on tools. Fresh solution shall be mixed daily.

E. General Trimming and Shaping of Conifers

1. Two basic classes of conifers can be found in Los Alamitos, those with branches radiating out from the trunk in whorls such as Pine trees or Cedar trees and those that sprout branches in a random manner such as Juniper or Taxus. Conifers shall typically be pruned in late winter or early spring. Typically, no more than thirty percent (30%) of the live foliage may be removed.

2. Contractor shall avoid damaging the central leader on all conifers. In specific cases the designated City staff may direct the Contractor to remove the central leader in an effort to limit the height of specific trees.

3. At the time of pruning, the designated City staff shall determine which trees shall have the new growth pinched back in an effort to control canopy size.

4. To control the growth of large, mature conifers, Contractor shall be required to prune the new growth of lateral limbs.

5. Typical pruning of conifers shall consist of removing crossed limbs, deadwood or unwanted branches from the interior of the canopy.

F. General Trimming and Shaping of Broadleaf Trees

Follow the shape indicated by the natural growth habits of each tree species. Trimming and shaping of trees shall be as directed by the Public Works Superintendent and in accordance with the following:

1. Cuts to laterals to preserve the natural form of the tree, leaving the head open enough for the branching system to show and permitting the dead material to be easily cleaned out and light to show through the head. Tree foliage shall be reduced by at least twenty-five percent (25%) but no more than fifty percent (50%).

2. Trim to remove dead wood or weak, diseased, insect-infested, broken, low, or crossing limbs. Branches with an extremely narrow angle of attachment should normally be removed. Small limbs, including suckers and waterspouts, shall be cut close to the trunk or branch from which they arise.

3. Stubbing shall not be an accepted practice for reducing the size or the framework of any tree.

G. General Trimming and Shaping of City Trees:
1. The objective is to control canopy size and basic structure while maintaining an aesthetically pleasing appearance.

2. City trees in the business districts shall be pruned on an annual cycle. The objective is to prune the trees in a manner that will provide clearance for business signs and storefronts while maintaining the natural shape and beauty of individual street trees. Contractor shall be required to meet the schedule requirements as outlined in the Professional Services Agreement requirements and make every attempt possible to reduce the impact on businesses and business patrons during the course of pruning activities.

3. City trees in residential neighborhoods shall be pruned on a tri-annual cycle. The objective shall be to prune the trees in a manner that will provide sunlight for private landscapes, and buildings or homes while maintaining shade over the streets and sidewalks.

H. Trimming for Traffic Clearances

Tree trimming for traffic clearances shall provide clearances of at least fourteen feet (14’) and no greater than sixteen feet (16’) above finish grade for moving vehicles within the traveled roadway, for pedestrians on sidewalks. Clearances for adjacent structures and their connecting utility lines (service drops), shall be determined by the Public Works Superintendent and conform to the following:

1. The maximum clearance under trees within the street right-of-way shall be sixteen feet (16’) over the traveled road, and ten feet (10’) over the curb line and the sidewalk side of the tree. When pruning the bottom branches, care shall be given to obtain a balanced appearance when viewed from across the street immediately opposite the tree.

2. Cut to laterals to preserve the natural form of the tree. Remove lateral branches at their point of origin, or shorten the length of a branch by cutting to a lateral, which is large enough to assume leadership.

3. When cutting back, avoid cutting back to small suckers. Remove smaller limbs and twigs in such a manner as to leave the foliage pattern evenly distributed.

I. Trimming Palm Trees.

Palm tree trimming shall consist of the removal of all dead fronds, dead frond sheaths, fruit clusters and other vegetation from the trunks of all palms listed in the Agreement Project Requirements in a manner selected by the Contractor and approved by the designated City staff, and in accordance with the following:

1. Dead fronds, and parts thereof, including stubs, shall be removed along the entire length of the trunk of each palm, leaving a clean unsheathed appearance slicked
from the ground to approximately twenty-four to thirty-six inches (24” – 36”) from the base of the green fronds at the top of the tree. The frond stubs (cut close to trunk) shall be left in place within a span of at least eighteen inches (18”) but no greater than thirty-six inches (36”).

2. Only the full, green, undamaged fronds shall remain at the crown of the tree. The Contractor shall be required to remove and dispose of any fallen or hanging fronds for a period of thirty (30) days after completion of the Professional Services Agreement.

3. The use of climbing spurs or spike shoes for the purpose of climbing palm trees is prohibited, unless specifically approved by the designated City staff. The Contractor shall be required to use an aerial tower with a height reach of one hundred feet (100’) for the purpose of trimming City Palm trees.

4. *Trachycarpus fortunei*, *Chamaerops humilis*, and *Phoenix roebeleni* species as well as other palm trees having a trunk height not more than eight (8) feet above the ground shall be trimmed but not slicked.

J. Small Tree Care

The City requires an active approach to the care of its young and newly planted trees. The Contractor shall be required to perform basic maintenance that will include but not be limited to tree well adjustments and watering, removal of weeds from tree wells, pruning, re-staking when necessary. The maintenance of small trees shall begin as soon as each individual tree has been planted by the Contractor. This work shall continue until the tree has been in the ground for a period of one year. If the tree dies to what is determined negligence on the Contractor’s part, it shall be replaced at Contractor’s expense.

K. Utility Line Clearance

During the course of this Professional Services Agreement, the Contractor may be required to perform utility line clearance in conjunction with routine or non-routine trimming activities. The Contractor shall be required to furnish all supervision, labor, equipment and materials necessary to accomplish the work in accordance with the Professional Services Agreement. The Contractor has the responsibility for compliance with safety and health standards of the California Occupational Safety and Health Act (OSHA) and all applicable rules, regulations and orders. The competency of Contractor’s personnel shall be maintained through regular training. All persons performing tree work on City trees in or around primary electrical lines shall be trained to do so in accordance the “Electrical Safety Orders” of the State of California.

L. Tree Removals
1. During the course of trimming activities for a specified street, Contractor shall notify the Public Works Superintendent of any trees which may be dead, hazardous, or in need of removal for any reason. The Public Works Superintendent shall make the final determination to remove or provide public noticing for removal at a later date. Removals shall be conducted in good workmanlike manner in accordance with the standards of the arboricultural profession.

2. All wood from removed trees is the property of the City and shall be disposed of at the direction of the designated City staff. No wood shall be left along public right-of-way unless approved by the Public Works Superintendent. All tree parts are to be loaded into transport vehicles or containers. The vehicles or containers must have the front, sides and rear solid and the top shall be tarped, or otherwise tightly enclosed. The transporting of tree parts must be made so that no debris escapes during the transport. Branches, suckers, bark and other tree parts that are chipped are to be covered while transported and hauled to the disposal site during the workday.

3. Contractor shall be required to call Underground Alert at least two (2) days before stumps are to be ground out. All tree stumps must be removed to at least eighteen (18) inches below the lowest soil level adjacent to the stump, or until deep roots are no longer encountered. The Contractor shall grind the stump a minimum distance of one and one half (1½') feet either side of the outer circumference of the stump, or until surface roots are no longer encountered.

4. Stumps should be cut low enough to the ground where routing can be done safely. This may be accomplished by cutting the stump at the time of grinding, or at the time of tree removal. All stumps are to be ground within forty-eight (48) hours of tree removal. Holes created by stump and root grinding must be filled the same day. The resultant chips from routing may be used to fill the hole to two (2) inches above normal ground level unless a new tree is to be planted in the same location and clean fill dirt will be required as a backfill. All excess routing chips debris will be removed and loaded into transport vehicle for disposal. Any damaged paved surfaces shall be restored to their original condition.

M. Pest Control

The City may periodically require the Contractor to treat for insects or disease. Treatment will be done only when specifically requested by the designated City staff, and shall be made in the form of soil injections. Contractor shall be required to provide the City with a written recommendation provided by a State Licensed Pest Control Advisor.

N. Crew Rental Services

Contractor shall provide a minimum standard crew of three (3) persons, one (1) chipper truck, one (1) chipper, one (1) aerial tower truck and all necessary saws and hand tools.
Crew complement should also be capable of modification in order to perform miscellaneous tree care tasks. The Public Works Superintendent shall provide a description of the work and recommended tools required to complete the assignment in an efficient and timely manner.

O. Emergency Response Service

1. The Contractor shall be required to provide emergency on call response for damaged trees as a result of storms or other reasons. Emergency calls may occur at any given time. The Contractor will be provided with locations and the work to be done at each location via telephone from a City authorized representative. Emergency work shall begin within two (2) hours of the initial telephone call.

2. Contractor shall be required to provide twenty-four (24) hour emergency phone numbers and the names of at least five (5) individuals upon award of Professional Services Agreement. Should the contact persons or their phone numbers change during the course of the Professional Services Agreement, those changes shall be submitted to the City within two (2) working days.

3. Contractor shall be required to provide all necessary traffic control during the course of emergency work. Should the work involve any high voltage power lines or any utility lines the Contractor shall be required to notify the responsible utility company.

4. Work performed under the emergency provision of this Professional Services Agreement shall be paid for on a “crew hour” basis. This shall include all labor, tools equipment, disposal fees and necessary materials.

P. Traffic Control

1. Contractor shall be required to supply the necessary equipment to provide adequate traffic control measures during tree trimming operations. This shall include but not be limited to high visibility arrow boards where appropriate. The contractor must abide by the most current edition of the Work Area Traffic Control Handbook, or W.A.T.C.H. manual, for traffic control. The City, prior to use, must approve all traffic control measures.

2. Tree trimming operations may be conducted on one side of the street at a time and at no time may streets be closed unless authorized, in advance, by designated City staff. During all tree trimming operations, adequate provisions shall be made by the Contractor to accommodate normal traffic flow over public streets. Means of ingress and egress shall be provided for occupants of adjacent property with convenient access to driveways, buildings, businesses or private residences. Pedestrian traffic shall be accommodated on adjacent sidewalks.
3. Contractor shall be required to provide and maintain barriers, guards, and lights whenever and wherever necessary in order to effectively protect the public from the dangers associated with the tree trimming operations. Contractor shall be required to post proper notices and signals for the public regarding detours and the conditions of work currently in progress.

Q. Public Noticing of Tree Trimming Operations

1. Contractor shall be required to notify residents and/or businesses of scheduled tree trimming operations at least seven (7) calendar days prior to the work being performed. Notifications shall be made in the form of door hangers, or letters mailed through the US Postal system.

2. City approved “No Parking” signs shall be posted on individual trees scheduled for trimming twenty-four (24) hours prior to the work being performed. Signs shall be taped or tied and not nailed or stapled to the trees.

R. Disposal of Debris

Each invoice shall include an exact copy in electronic format that is compatible with the City’s Tree Inventory program. Failure to submit invoices in this format may result in non-payment until these requirements are met.

W. **Inspections**

The Contract Documents shall include provisions to compensate CONTRACTOR for the costs of locating, repairing damage not due to the failure of CONTRACTOR to exercise reasonable care, and removing or relocating such utility facilities not indicated in the plans and specifications with reasonable accuracy and for equipment on the project necessarily idled during such work. CONTRACTOR shall not be assessed liquidated damages for delay in completion of the project, when such delay was caused by the failure of AGENCY or the owner of a utility to provide for removal or relocation of such utility facilities.

B. To the extent that the work requires trenches in excess of five feet (5’), and is estimated to cost more than $25,000, prior to any excavation, CONTRACTOR must provide the AGENCY, or a registered civil or structural engineer employed by the AGENCY to whom authority has been delegated to accept such plans, a detailed plan showing the design of shoring, bracing, sloping, or other provisions to be made for worker protection from the hazard of caving ground during the excavation of such trench or trenches. If such plan varies from the shoring system standards, the plan shall be prepared by a registered civil or structural engineer. Nothing in this section shall be deemed to allow the use of a shoring, sloping, or protective system less effective than that required by the Construction Safety Orders.

C. This AGREEMENT is further subject to Public Contract Code Section 7104 with regard to any trenches deeper than four feet (4’) involved in the proposed work as follows:

CONTRACTOR shall promptly, and before the following conditions are disturbed, notify AGENCY, in writing, of any:

2. Subsurface or latent physical conditions at the site differing from those indicated by all available information provided prior to the deadline for submission of bids.

3. Unknown physical conditions at the site of any unusual nature, different materially from those ordinarily encountered and generally recognized as inherent in work of the character provided for in the contract.
AGENCY shall promptly investigate the conditions, and if it finds that the conditions do materially so differ, or involve hazardous waste, and cause a decrease or increase in CONTRACTOR’s cost of, or the time required for, performance of any part of the work, AGENCY shall issue a change order under the procedures described in this AGREEMENT.

In the event that a dispute arises between AGENCY and CONTRACTOR whether the conditions materially differ, or involve hazardous waste, or cause a decrease or increase in CONTRACTOR’s cost of, or time required for, performance of any part of the work, CONTRACTOR shall not be excused from any scheduled completion date provided in the AGREEMENT, but shall proceed with all work to be performed under the AGREEMENT. CONTRACTOR shall retain any and all rights provided either by contract or by law which pertain to the resolution of disputes and protests between the contracting parties.

**ARTICLE VI: Insurance**

A. With respect to performance of work under this AGREEMENT, CONTRACTOR shall maintain, and shall require all of its subcontractors to maintain, insurance as required by Section E “Standard Specifications” of the Contract Documents.

B. This AGREEMENT is further subject to Workers’ Compensation obligations, including, but not limited to, California Labor Code Sections 1860 and 1861 as follows:

CONTRACTOR shall take out and maintain, during the life of this contract, Worker’s Compensation Insurance for all of CONTRACTOR’s employees employed at the site of improvement; and, if any work is sublet, CONTRACTOR shall require the subcontractor similarly to provide Worker’s Compensation Insurance for all of the latter’s employees, unless such employees are covered by the protection afforded by CONTRACTOR. CONTRACTOR and any of CONTRACTOR’s subcontractors shall be required to provide AGENCY with a written statement acknowledging its obligation to secure payment of Worker’s Compensation Insurance as required by Labor Code § 1861; to wit: ‘I am aware of the provisions of Section 3700 of the Labor Code which require every employer to be insured against liability for workers’ compensation or to undertake self-insurance in accordance with the provisions of that code, and I will comply with such provisions before commencing the performance of the work of this contract.’ If any class of employees engaged in work under this AGREEMENT at the site of the Project is not protected under any Worker’s Compensation law, CONTRACTOR shall provide and shall cause each subcontractor to provide adequate insurance for the protection of employees not otherwise protected. CONTRACTOR shall indemnify and hold harmless AGENCY for any damage resulting from failure of either CONTRACTOR or any subcontractor to take out or maintain such insurance.

**ARTICLE VII: Indemnification**

To the fullest extent permitted by law, CONTRACTOR shall, at its sole cost and expense, fully defend, indemnify and hold harmless AGENCY, its authorized representatives and their respective subsidiaries, affiliates, members, directors, officers, employees and agents (collectively, the “Indemnitees”) from and against any and all claims, actions, demands, costs, judgments, liens, penalties, liabilities, damages, losses, and expenses, including but not limited to any fees of
accountants, attorneys or other professionals (collectively “Liabilities”), arising out of, in connection with, resulting from or related to, any act, omission, fault or negligence of CONTRACTOR, CONTRACTOR’s Representative, or any of its officers, agents, employees, Subcontractors or Suppliers, or any person or organization directly or indirectly employed by any of them (Collectively, the “Indemnitors”), in connection with or relating to or claimed to be in connection with or relating to the work performed under this AGREEMENT.

If CONTRACTOR is a joint venture or partnership, each venturer or partner shall be jointly and severally liable for any and all of the duties and obligations of CONTRACTOR that are assumed under or arise out of this AGREEMENT. Each of such venturers or partners waives notice of the breach or non-performance of any undertaking or obligation of CONTRACTOR contained in, resulting from or assumed under this AGREEMENT, and the failure to give any such notice shall not affect or impair such venturer’s or partner’s joint and several liability hereunder.

**ARTICLE VIII: Binding Effect**

AGENCY and CONTRACTOR each binds itself, its partners, successors, assigns, and legal representatives to the other party hereto and to its partners, successors, assigns, and legal representatives in respect of all covenants, agreements, and obligations contained in the Contract Documents. This AGREEMENT is not assignable nor the performance of either party’s duties delegable without the prior written consent of the other party. Any attempted or purported assignment or delegation of any of the rights of obligations of either party without the prior written consent of the other shall be void and of no force and effect.

**ARTICLE IX: Dispute Resolution**

A. In the event of a dispute arising out of the terms of this AGREEMENT, including any action brought to declare the rights granted herein or to enforce any of the terms of this AGREEMENT, the party prevailing in such dispute shall be entitled to all reasonable costs and litigation expenses actually incurred, including fees of attorneys and expert witnesses. Any court action arising out of this AGREEMENT shall be filed in the Los Angeles County Superior Court. Any alternative dispute resolution proceeding arising out of this AGREEMENT shall be heard in the City of Los Angeles or the City of Los Alamitos, California.

C. This AGREEMENT is further subject to the provisions of Article 1.5 (commencing at Section 20104) of Division 2, Part 3 of the Public Contract Code regarding the resolution of public works claims of less than $375,000. Article 1.5 mandates certain procedures for the filing of claims and supporting documentation by Contractor, for the response to such claims by the Agency, for a mandatory meet and confer conference upon the request of Contractor, for mandatory nonbinding mediation in the event litigation is commenced, and for mandatory judicial

REQUEST FOR PROPOSAL (RFP) 2020-01
TREE MAINTENANCE SERVICES
IN THE CITY OF LOS ALAMITOS, CALIFORNIA

[Business & Professions Code § 7028.15]
[Public Contract Code § 20103.5]

I, the undersigned, certify that I am aware of the following provisions of California law and that I, or the entity on whose behalf this certification is given, hold a currently valid California contractor’s license as set forth below:

Business & Professions Code § 7028.15:

a) It is a misdemeanor for any person to submit a bid to a public agency to engage in the business or act in the capacity of a contractor within this state without having a license therefore, except in any of the following cases:

(1) The person is particularly exempted from this chapter.

(2) The bid is submitted on a state project governed by Section 10164 of the Public Contract Code or on any local agency project governed by Section 20104 [now § 20103.5] of the Public Contract Code.

b) If a person has been previously convicted of the offense described in this section, the court shall impose a fine of 20 percent of the price of the contract under which the unlicensed person performed contracting work, or four thousand five hundred dollars ($4,500), whichever is greater, or imprisonment in the county jail for not less than 10 days nor more than six months, or both.

In the event the person performing the contracting work has agreed to furnish materials and labor on an hourly basis, “the price of the contract” for the purposes of this subdivision means the aggregate sum of the cost of materials and labor furnished and the cost of completing the work to be performed.

c) This section shall not apply to a joint venture license, as required by Section 7029.1. However, at the time of making a bid as a joint venture, each person submitting the bid shall be subject to this section with respect to his/her individual licenser.

d) This section shall not affect the right or ability of a licensed architect, land surveyor, or registered professional engineer to form joint ventures with licensed contractors to render services within the scope of their respective practices.

e) Unless one of the foregoing exceptions applies, a bid submitted to a public agency by a contractor who is not licensed in accordance with this chapter shall be considered nonresponsive and shall be rejected by the public agency. Unless one of the foregoing exceptions applies, a local public agency shall, before awarding a contract or issuing a purchase order, verify that the contractor was properly licensed when the contractor submitted the bid. Notwithstanding any other provision of law, unless one of the foregoing exceptions applies, the registrar may issue a citation to any public officer or employee of a public entity who knowingly awards a contract or issues a purchase order to a contractor who is not licensed pursuant to this chapter. The amount of civil penalties, appeal, and finality of such citations shall be subject to Sections 7028.7 to 7028.13, inclusive. Any contract awarded to, or any purchase order issued to, as contractor who is not licensed pursuant to this chapter is void.
f) Any compliance or noncompliance with subdivision (e) of this section, as added by Chapter 863 of the Statutes of 1989, shall not invalidate any contract or bid awarded by a public agency during which time that subdivision was in effect.

g) A public employee or officer shall not be subject to a citation pursuant to this section if the public employee, officer, or employing agency made an inquiry to the board for the purposes of verifying the license status of any person or contractor and the board failed to respond to the inquiry within three business days. For purposes of this section, a telephone response by the board shall be deemed sufficient.

Public Contract Code § 20103.5:

In all contracts subject to this part where federal funds are involved, no bid submitted shall be invalidated by the failure of the bidder to be licensed in accordance with the laws of this state. However, at the time the contract is awarded, the contractor shall be properly licensed in accordance with the laws of this state. The first payment for work or material under any contract shall not be made unless and until the Registrar of Contractors verifies to the agency that the records of the Contractors’ State License Board indicate that the contractor was properly licensed at the time the contract was awarded. Any bidder or contractor not so licensed shall be subject to all legal penalties imposed by law, including, but not limited to, any appropriate disciplinary action by the Contractors’ State License Board. The agency shall include a statement to that effect in the standard form of pre-qualification questionnaire and financial statement. Failure of the bidder to obtain proper and adequate licensing for an award of a contract shall constitute a failure to execute the contract and shall result in the forfeiture of the security of the bidder.

City of Los Alamitos
CITY COUNCIL AGENDA REPORT

MEETING DATE: February 18, 2020 ITEM NUMBER: 10H
To: Mayor Richard D. Murphy and Members of the City Council
Presented By: Leslie Roseberry, Interim Development Services Director
Subject: Approval of Amendment No. 1 with Citywide Auto Care for Annual Fleet Maintenance

SUMMARY
This item provides a basis for continuing services with Citywide Auto Care to provide annual preventative maintenance and repair to all City owned vehicles for one additional year. The current Professional Services Agreement (PSA) expires on April 15, 2020, but can be extended for one year at the City’s option.

RECOMMENDATION
Authorize the Mayor to execute Amendment No. 1 of the Professional Services Agreement with Citywide Auto Care.

BACKGROUND
The City of Los Alamitos currently has an active fleet of 29 vehicles, which primarily serve Police, Public Works and Recreation operations. Since 2017, the City no longer completes maintenance of city vehicles other than minor items, such as oil changes and tire rotation and replacement. In previous years, the City has relied upon fleet maintenance being performed as follows:

- Dealership conducts warranty work on vehicles under warranty.
- Local auto repair shops complete as needed repairs and emergency repairs.
- Contract with mobile vehicle repair company (Managed Mobile) for repairs and preventative maintenance.

DISCUSSION
Citywide Auto has been providing fleet maintenance services to the City of Los Alamitos since 2019 through a Professional Service Agreement (PSA). The PSA expires on April 15, 2020 but can be extended for up to two additional one-year terms at the City’s option. Staff has been satisfied with the service provided by Citywide Auto Care.
FISCAL IMPACT

There is sufficient funding in the Fiscal Year 2019-2020 Vehicles and Equipment Internal Services Fund budget (Account Nos. 50-546-5275, 5276, 5277 and 5278). The budget reflects $40,000 for contractual vehicle maintenance expenses.

2.2 Method of Payment. In any month in which Firm wishes to receive payment, Firm shall no later than first working day of such month, submit to the City, in a form approved by the City Manager or his designee, an invoice for services rendered prior to the date of the invoice. Such requests shall be based upon the amount and value of the services performed by Firm and accompanied by such reporting data including an itemized breakdown of all costs incurred and tasks performed during the period covered by the invoice, as may be required by the City. Within thirty (30) calendar days of receipt of invoice, City shall pay all undisputed amounts included on the invoice.

2.3 Changes in Scope. In the event any change or changes in the Scope of Services is requested by the City, the Parties shall execute a written amendment to this Agreement, signed by an individual authorized to formally bind the Party for which he/she is signing, setting forth with
particularity all terms of such amendment, including, but not limited to, any additional professional fees. An amendment may be entered into: (a) to provide for revisions or modifications to documents or other work product when documents or other work product or work is required by the enactment or revision of law subsequent to the preparation of any documents, other work product, or work; and/or, (b) to provide for additional services not included in this Agreement or not customarily furnished in accordance with generally accepted practice in Firm’s profession.

2.4 Appropriations. This Agreement is subject to and contingent upon funds being appropriated therefore by the Los Alamitos City Council for each fiscal year covered by the term of this Agreement. If such appropriations are not made, this Agreement shall automatically terminate without penalty to the City.

3. SCHEDULE OF PERFORMANCE

3.1 Time of Essence. Time is of the essence in the performance of this Agreement. The time for completion of the Project Services to be performed by Firm is an essential condition of this Agreement.

3.2 Schedule of Performance. Firm shall prosecute regularly and diligently the Project Services according to the periods specified in the Scope of Services. When requested by Firm, extensions of the time period(s) specified in the Scope of Services may be approved in writing by the Contract Officer; however, the City shall not be obligated to grant any such extension.

3.3 Force Majeure. The time for performance of the Project Services may be extended because of any delays due to unforeseeable causes beyond the control and without the fault or negligence of the Firm (financial inability excepted), including, but not limited to, acts of God or of the public enemy, unusually severe weather, fires, earthquakes, floods, epidemics, quarantine restrictions, riots, strikes, freight embargoes, wars, and/or acts of any governmental agency, including the City, if Firm, within ten (10) calendar days of the commencement of such delay, notifies the City Manager in writing of the causes of the delay. The City Manager shall ascertain the facts and the extent of delay, and extend the time for performing the Services for the period of the enforced delay when and if in the judgment of the City Manager such delay is justified. The City Manager's determination shall be final and conclusive upon the Parties to this Agreement. In no event shall Firm be entitled to recover damages against the City for any delay in the performance of this Agreement, however caused, Firm's sole remedy being extension of the Agreement pursuant to this section.

3.4 Term. Unless earlier terminated as provided elsewhere in this Agreement, this Agreement shall commence upon the Effective Date and shall continue in full force and effect for a period of one (1), ending on April 15, 2020. The initial contract/agreement period will be for one (1) year; there will be an option to extend services exercisable only by the City, with the possibility of two (2) one-year extensions. Any changes to service levels will be mutually agreed upon before any extension is authorized. As part of the contract/agreement, the City of Los Alamitos will reserve the right to select or reject employees and sub-contractors providing services.
4. COORDINATION OF PROJECT SERVICES

4.1 Firm’s Representative. The following principal of Firm is hereby designated as being the principal and representative of Firm authorized to act on its behalf with respect to the Project Services and to make all decisions in connection therewith: Robyne L. Hinds. It is expressly understood that the experience, knowledge, education, capability, expertise, and reputation of the foregoing principal is a substantial inducement for City to enter into this Agreement. Therefore, the foregoing principal shall be responsible during the term of this Agreement for directing all activities of Firm and devoting sufficient time to personally supervise the Project Services performed hereunder. The foregoing principal may not be changed by Firm without prior written approval of the Contract Officer.

4.2 City’s Contract Officer. The City’s Contract Officer shall be such person as may be designated by the City Manager, and is subject to change by the City Manager. It shall be the Firm’s responsibility to ensure that the Contract Officer is kept fully informed of the progress of the performance of the Project Services, and the Firm shall refer any decisions which must be made by City to the Contract Officer. Unless otherwise specified herein, any approval of City required hereunder shall mean the approval of the Contract Officer. The Contract Officer shall have authority to sign all documents on behalf of the City required hereunder to carry out the terms of this Agreement.

4.3 Prohibition Against Subcontracting or Assignments. The experience, knowledge, capability, expertise, and reputation of Firm, its principals and employees, were a substantial inducement for City to enter into this Agreement. Therefore, Firm shall not assign the performance of this Agreement, nor any part thereof, nor any monies due hereunder, voluntarily or by operation of law, without the prior written consent of City. Firm shall not contract with any other entity to perform the Project Services without prior written consent of City. If Firm is permitted by City to subcontract any part of this Agreement, Firm shall be responsible to City for the acts and omissions of its subcontractor(s) in the same manner as it is for persons directly employed. Nothing contained in this Agreement shall create any contractual relationships between any subcontractor and City. All persons engaged in the performance of Project Services will be considered employees of Firm. City will deal directly with and will make all payments to Firm. In addition, neither this Agreement nor any interest herein may be transferred, assigned, conveyed, hypothecated, or encumbered voluntarily or by operation of law, whether for the benefit of creditors or otherwise, without the prior written consent of City. Transfers restricted hereunder shall include the transfer to any person or group of persons acting in concert of more than twenty-five percent (25%) of the present ownership and/or control of Firm, taking all transfers into account on a cumulative basis. In the event of any such unapproved transfer, including any bankruptcy proceeding, this Agreement shall be void. No approved transfer shall release Firm or any surety of Firm from any liability hereunder without the express written consent of City.

4.4 Independent Contractor.

4.4.1 The legal relationship between the Parties is that of an independent contractor; nothing herein shall be deemed to make Firm a City employee. During the performance of this Agreement, Firm and its officers, employees, and agents shall act in an independent capacity
and shall not act as City officers or employees. Firm will determine the means, methods and details of performing the Project Services subject to the requirements of this Agreement. The personnel performing the Project Services on behalf of Firm shall at all times be under Firm’s exclusive direction and control. Neither City nor any of its officials, officers, employees, agents or volunteers shall have control over the conduct of Firm or any of its officers, employees, or agents, except as set forth in this Agreement. Firm, its officers, employees or agents, shall not maintain a permanent office or fixed business location at City’s offices. City shall have no voice in the selection, discharge, supervision, or control of Firm’s officers, employees, or agents or in fixing their number, compensation, or hours of service. Firm shall pay all wages, salaries, and other amounts due its employees in connection with the performance of Project Services and shall be responsible for all reports and obligations respecting them, including but not limited to social security income tax withholding, unemployment compensation, workers’ compensation, and other similar matters. City shall not in any way or for any purpose be deemed to be a partner of Firm in its business or otherwise a joint venturer or a member of any joint enterprise with Firm.

4.4.2 Firm shall not incur or have the power to incur any debt, obligation, or liability against City, or bind City in any manner.

4.4.3 No City benefits shall be available to Firm, its officers, employees, representatives, agents, subconsultants or subcontractors in connection with the performance of any Project Services. Except for professional fees paid to Firm as provided for in this Agreement, City shall not pay salaries, wages, or other compensation to Firm for the performance of any Project Services. City shall not be liable for compensation or indemnification to Firm, its officers, employees, representatives, agents, subconsultants or subcontractors, for injury or sickness arising out of the performance of any Project Services. If for any reason any court or governmental agency determines that the City has financial obligations, other than pursuant to Section 2 herein, of any nature relating to salary, taxes, or benefits of Firm’s officers, employees, representatives, agents, or subconsultants or subcontractors, Firm shall defend, indemnify, and hold harmless City from and against all such financial obligations.

4.5 PERS Eligibility Indemnification.

4.5.1 In the event that Firm or any officer, employee, representative, agent, subconsultant or subcontractor of Firm providing any Project Services claims or is determined by a court of competent jurisdiction or the California Public Employee Retirement System (PERS) to be eligible for enrollment in PERS as an employee of the City, Firm shall indemnify, defend, and hold harmless City against (1) all such claims and determinations, (2) for the payment of any employee and/or employer contributions for PERS benefits on behalf of Firm or its officers, employees, representatives, agents, subconsultants or subcontractors, and (3) the payment of any penalties and interest on such contributions, which would otherwise be the responsibility of the City.

4.5.2 Notwithstanding any other agency, state or federal policy, rule, regulation, law or ordinance to the contrary, Firm and any of its officers, employees, representatives, agents, subconsultants or subcontractors providing any Project Services shall not qualify for or become entitled to, and hereby agree to waive any claims to, any compensation, benefit, or any incident of
employment by City, including but not limited to eligibility to enroll in PERS as an employee of City and entitlement to any contribution to be paid by City for employer contribution and/or employee contributions for PERS benefits.

5. **INSURANCE**

5.1 **Compliance with Insurance Requirements.** Firm shall obtain, maintain, and keep in full force and effect during the term of this Agreement, at its sole cost and expense, and in a form and content satisfactory to City, all insurance required under this section. Firm shall not commence any Project Services unless and until it has provided evidence satisfactory to City that it has secured all insurance required under this section. If Firm’s existing insurance policies do not meet the insurance requirements set forth herein, Firm agrees to amend, supplement or endorse the policies to do so.

5.2 **Types of Insurance Required.** As a condition precedent to the effectiveness of this Agreement, and without limiting the indemnity provisions set forth in this Agreement, Firm shall obtain and maintain in full force and effect during the term of this Agreement, including any extension thereof, the following policies of insurance:

5.2.1 **Professional Liability/Errors and Omissions Insurance** ("PLI"). Firm shall obtain and maintain a policy of Professional Liability or Errors and Omissions Insurance appropriate to Firm’s profession with per-claim and aggregate limits of no less than Two Million Dollars ($2,000,000.00). Covered professional services shall specifically include all Project Services to be performed under the Agreement and the policy shall be endorsed to delete any exclusions that may exclude coverage for claims within the minimum PLI limits set forth herein for the Project Services to be performed under this Agreement.

5.2.1.1 The PLI policy shall be endorsed to delete any Contractual Liability Exclusion. The PLI shall include contractual liability coverage applicable to this Agreement. The policy must “pay on behalf” of the insured, and include a provision establishing the insurer’s duty to defend the insured.

5.2.1.2 If the PLI policy is written on a “claims-made” basis, the policy shall be continued in full force and effect at all times during the term of this Agreement, and for a period of three (3) years from the date of the completion of all Project Services provided hereunder (the "PLI Coverage Period"). If any PLI policy is replaced, cancelled, non-renewed, discontinued, or otherwise terminated, or if the limits of a PLI policy are reduced or the available coverage depleted below the required minimum coverage amounts for any reason during the PLI Coverage Period, Firm shall immediately obtain replacement PLI coverage meeting the requirements of this Section 5.2.1. Such replacement coverage shall satisfy all requirements herein, and shall include coverage for the prior acts or omissions of Firm during the time period during which any Project Services were performed. The coverage shall be evidenced by either a new policy evidencing no gap in coverage, or by obtaining separate extended “tail” coverage with the present or new carrier or other insurance arrangements providing for complete coverage, either of which shall be subject to the written approval by the City.
5.2.1.3 If the PLI policy is written on an “occurrence” basis, the policy shall be continued in full force and effect during the term of this Agreement, or until completion of the Project Services provided for in this Agreement, whichever is later. In the event of termination of the PLI policy during this period, new coverage shall immediately be obtained, and written evidence of the policy shall be immediately provided to the City, to ensure PLI coverage during the entire course of performing the Project services.

5.2.1.4 Firm shall not perform any Project Services at any time during which required types or amounts of PLI insurance are not in effect, and the City shall have no obligation to pay Firm for Project Services performed while required PLI insurance is not in effect.

5.2.2 Commercial General Liability Insurance. Firm shall obtain and maintain, in full force and effect throughout the term of this Agreement, a policy of Commercial General Liability Insurance (CGL). Coverage shall be at least as broad as ISO Form CG 00 01 written on a per occurrence basis, including products and completed operations, property damage, bodily injury and personal & advertising injury with limits of no less than One Million Dollars ($1,000,000.00) per occurrence and Two Million Dollars ($2,000,000.00) in the general aggregate. The policy shall not contain any endorsements or provisions limiting coverage for (1) contractual liability, (2) cross liability exclusion for claims or suits by one insured against another, or (3) contain any other exclusion contrary to the Agreement.

5.2.3 Automobile Liability Insurance. Firm shall obtain and maintain, in full force and effect throughout the term of this Agreement, a policy of Automobile Liability Insurance. Coverage shall be at least as broad as ISO Form CA 00 01 written on a per occurrence basis, covering Code 1 (any auto), or if the Firm has no owned autos, Code 8 (hired) and Code 9 (non-owned), with limits of no less than One Million Dollars ($1,000,000.00) for each occurrence covering bodily injury and property damage.

5.2.4 Workers’ Compensation Insurance. Firm shall obtain and maintain, in full force and effect throughout the term of this Agreement, a policy of Workers’ Compensation Insurance in at least the minimum statutory amounts, and in compliance with all other statutory requirements, as required by the State of California. Firm agrees to waive and obtain endorsements from its workers’ compensation insurer waiving all subrogation rights under its workers’ compensation insurance policy against the City, its officials, officers, employees, agents and volunteers, and to require each of its subconsultants and subcontractors, if any, to do likewise under their workers’ compensation insurance policies. Firm shall also obtain and maintain, in full force and effect throughout the term of this Agreement, a policy of Employer’s Liability Insurance written on a per occurrence basis with limits of at least One Million Dollars ($1,000,000.00) per accident for bodily injury or disease. Notwithstanding the foregoing, Firm shall not be required to procure either Worker’s Compensation Insurance or Employer’s Liability Insurance if Firm provides written verification to the City that Firm does not have any employees.

5.3 Acceptability of Insurers. Insurance required by this section shall be issued by a licensed company authorized to transact business in the state by the Department of Insurance for the State of California with a current rating of A:-VII or better (if an admitted carrier), or a current rating of A:X or better (if offered by a non-admitted insurer listed on the State of California List
of Approved Surplus Lines Insurers (LASLI)), by the latest edition of A.M. Best’s Key Rating Guide, except that the City will accept workers’ compensation insurance from the State Compensation Fund. In the event the City determines that the work or Project Services to be performed under this Agreement creates an increased or decreased risk of loss to the City, the Firm agrees that the minimum limits of the insurance policies may be changed accordingly upon receipt of written notice from the City. Firm shall immediately substitute any insurer whose A.M. Best rating drops below the levels specified herein.

5.4 **Specific Insurance Provisions and Endorsements.** Required insurance policies shall not be in compliance if they include any limiting provision or endorsement that has not been submitted to the City for written approval. Required insurance policies shall contain the following provisions, or Firm shall provide endorsements on forms approved by the City to add the following provisions to the insurance policies:

5.4.1 **CGL and Auto Liability Endorsements.** The policy or policies of insurance required by this section for CGL and Automobile Liability Insurance shall be endorsed as follows:

5.4.1.1 **Additional Insured.** The City, its officials, officers, employees, agents and volunteers, shall be additional insureds with regard to liability and defense of suits or claims arising out of the performance of the Agreement; and

5.4.1.1.1 **Additional Insured Endorsements.** Additional insured endorsements shall not (1) be restricted to “ongoing operations”, (2) exclude “contractual liability”, (3) restrict coverage to “sole” liability of Firm, or (4) contain any other exclusions contrary to the Agreement; and, the coverage shall contain no special limitations on the scope of protection afforded to additional insureds.

5.4.1.2 **Primary and Non-Contributing Insurance.** Each CGL and Automobile Liability Insurance policy shall be endorsed to be primary, and any other insurance, deductible, or self-insurance maintained by the City, its officials, officers, employees, agents or volunteers, shall not contribute with this primary insurance.

5.4.1.3 **Waiver of Subrogation.** Each CGL and Automobile Liability Insurance policy shall contain or be endorsed to waive subrogation against the City, its officials, officers, employees, agents and volunteers, or shall specifically allow Firm or others providing insurance evidence in compliance with the requirements set forth in this section to waive their right to recovery prior to a loss. Firm hereby agrees to waive its own right of recovery against the City, its officials, officers, employees, agents and volunteers, and Firm hereby agrees to require similar written express waivers and insurance clauses from each of its subconsultants or subcontractors.

5.4.2 **Notice of Cancellation.** Each policy of any type shall be endorsed to provide that coverage shall not be suspended, voided, cancelled, or modified, or reduced in coverage or in limits, except after thirty (30) calendar days prior written notice has been provided to the City. Notwithstanding the foregoing, if coverage is to be suspended, voided, or cancelled because of Firm’s failure to pay the insurance premium, the notice provided by the insurer to City shall be by not less than ten (10) calendar days prior written notice. (A statement that notice will
be provided "in accordance with the policy terms" or words to that effect is inadequate to meet the requirements of this section.)

5.5 **Deductibles and Self-Insured Retentions.** Any deductible or self-insured retention must be approved in writing by the City in advance. The decision whether to approve or withhold approval of a deductible or self-insured retention shall be made by the City in the City's sole and absolute discretion.

5.6 **Evidence of Coverage.** Concurrently with the execution of the Agreement, Firm shall deliver certificates of insurance together with original endorsements affecting each of the insurance policies required by this section. Firm shall promptly furnish, at City's request, copies of actual policies including all declaration pages, endorsements, exclusions and any other policy documents City may require to verify coverage.

5.6.1 Required insurance policies shall not be in compliance if they include any limiting provision or endorsement that has not been submitted to the City for written approval.

5.6.2 **Authorized Signatures.** The certificates of insurance and original endorsements for each insurance policy shall be signed by a person authorized by that insurer to bind coverage on its behalf.

5.6.3 **Renewal/Replacement Policies.** At least fifteen (15) calendar days prior to the expiration of any such policy, evidence of insurance showing that such insurance coverage has been renewed or extended shall be filed with the City. If such coverage is cancelled or reduced and not replaced immediately so as to avoid a lapse in the required coverage, Firm shall, within ten (10) calendar days after receipt of written notice of such cancellation or reduction of coverage, file with the City evidence of insurance showing that the required insurance has been reinstated or has been provided through another insurance company or companies meeting all requirements of this Agreement.

5.7 **Requirements Not Limiting.** Requirement of specific coverage or minimum limits contained in this section are not intended as a limitation on coverage, limits, or other requirements, or a waiver of any coverage normally provided by any insurance. Nothing in this section shall be construed as limiting in any way the indemnification provision contained in this Agreement, or the extent to which Firm may be held responsible for payments of damages to persons or property.

5.8 **Enforcement of Agreement (Non-Estoppel).** Firm acknowledges and agrees that actual or alleged failure on the part of the City to inform Firm of any non-compliance with any of the insurance requirements set forth in this section imposes no additional obligation on the City nor does it waive any rights hereunder.

5.9 **Insurance for Subconsultants.** Firm shall either: (1) include all subconsultants or subcontractors engaged in the performance of Project Services on behalf of Firm as additional named insureds under the Firm's insurance policies; or (2) Firm shall be responsible for causing its subconsultants or subcontractors to procure and maintain the appropriate insurance in compliance with the terms of the insurance requirements set forth in this section, including adding
the City, its officials, officers, employees, agents and volunteers, as additional insureds to their respective policies. Firm shall not allow any subconsultant or subcontractor to commence any work or services relating to this Agreement unless and until it has provided evidence satisfactory to City that the subconsultant or subcontractor has secured all insurance required under this section.

5.10 Other Insurance Requirements. The following terms and conditions shall apply to the insurance policies required of Firm and its subconsultants and subcontractors, if any, pursuant to this Agreement:

5.10.1 Firm shall provide immediate written notice to City if (1) any of the insurance policies required herein are terminated, cancelled or suspended, (2) the limits of any of the insurance coverages required herein are reduced, or (3) the deductible or self-insured retention is increased.

5.10.2 All insurance coverage and limits provided by Firm and available or applicable to this Agreement are intended to apply to each insured, including additional insureds, against whom a claim is made or suit is brought to the full extent of the policies. Nothing contained in this Agreement or any other agreement relating to the City or its operations shall limit the application of such insurance coverage.

5.10.3 None of the insurance coverages required herein will be in compliance with the requirements of this section if they include any limiting endorsement which substantially impairs the coverages set forth herein (e.g., elimination of contractual liability or reduction of discovery period), unless the endorsement has first been submitted to the City and approved in writing.

5.10.4 Certificates of insurance will not be accepted in lieu of required endorsements, and submittal of certificates without required endorsements may delay commencement of the Project. It is Firm's obligation to ensure timely compliance with all insurance submittal requirements as provided herein.

5.10.5 Firm agrees to ensure that subconsultants and subcontractors, if any, and any other parties involved with the Project who are brought onto or involved in the Project by Firm, provide the same minimum insurance coverage required of Firm. Firm agrees to monitor and review all such coverage and assumes all responsibility for ensuring that such coverage is provided in conformity with the requirements of this section. Firm agrees that upon request, all agreements with subcontractors and others engaged in the provision of Project Services will be submitted to the City for review.

5.10.6 Firm agrees to provide immediate written notice to City of any claim, demand or loss against Firm arising out of the work or Project Services performed under this Agreement and for any other claim, demand or loss which may reduce the insurance available to pay claims, demands or losses arising out of this Agreement.

6. INDEMNIFICATION
To the fullest extent permitted by law, Firm shall defend (at Firm’s sole cost and expense with legal counsel reasonably acceptable to City), indemnify and hold the City, its officials, officers, employees, agents and volunteers, free and harmless from any and all claims, demands, orders, causes of action, costs, expenses, liabilities, losses, penalties, judgments, arbitration awards, settlements, damages or injuries of any kind, in law or in equity, including but not limited to property or persons, including wrongful death, (collectively “Claims”) in any manner arising out of, pertaining to, related to, or incident to any alleged acts, errors or omissions, or willful misconduct of Firm, its officers, directors, employees, subconsultants, subcontractors, agents or invitees in connection with performance under this Agreement, or in any manner arising out of, pertaining to, related to, or incident to an alleged breach of this Agreement, including without limitation the payment of all consequential damages, expert witness fees and attorneys’ fees and other related costs and expenses.

Notwithstanding the foregoing, and only to the extent that the Project Services performed by Firm are subject to California Civil Code Section 2782.8, the above indemnity shall be limited, to the extent required by Civil Code Section 2782.8, to claims that arise out of, pertain to, or relate to the negligence, recklessness, or willful misconduct of the Firm.

Under no circumstances shall the insurance requirements and limits set forth in this Agreement be construed to limit Firm’s indemnification obligation or other liability hereunder. Notwithstanding the foregoing, such obligation to defend, hold harmless and indemnify the City, its officials, officers, employees, agents and volunteers, shall not apply to the extent that such Claims are caused by the sole negligence or willful misconduct of that indemnified party.

7. **REPORTS AND RECORDS**

7.1 **Records.** Firm shall keep complete, accurate, and detailed accounts of all time, costs, expenses, and expenditures pertaining in any way to this Agreement. Firm shall keep such books and records as shall be necessary to properly perform the Project Services required by this Agreement and to enable the Contract Officer to evaluate the performance of such Project Services. The Contract Officer shall have full and free access to such books and records at all reasonable times, including the right to inspect, copy, audit, and make records and transcripts from such records.

7.2 **Reports.** Firm shall periodically prepare and submit to the Contract Officer such reports concerning the performance of the Project Services as the Contract Officer shall require.

7.3 **Ownership of Documents.** All drawings, specifications, reports, records, documents, memoranda, correspondence, computations, and other materials prepared by Firm, its employees, subconsultants, subcontractors and agents in the performance of this Agreement shall be the property of City and shall be promptly delivered to City upon request of the Contract Officer or upon the termination of this Agreement, and Firm shall have no claim for further employment or additional compensation as a result of the exercise by City of its full rights of ownership of the documents and materials hereunder. Firm may retain copies of such documents for its own use. Firm shall have an unrestricted right to use the concepts embodied therein. Firm shall ensure that all of its subconsultants and subcontractors shall provide for assignment to City of any documents
or materials prepared by them, and in the event Firm fails to secure such assignment, Firm shall indemnify City for all damages resulting therefrom.

7.4 Release of Documents. Except to the extent otherwise required by law, no drawing, specification, report, record, document, or other material prepared by Firm, its employees, subconsultants, subcontractors and agents in the performance of Project Services shall not be released publicly without the prior written approval of the Contract Officer.

8. ENFORCEMENT OF AGREEMENT

8.1 California Law and Venue. This Agreement shall be construed and interpreted both as to validity and as to performance of the Parties in accordance with the laws of the State of California. Legal actions concerning any dispute, claim, or matter arising out of or in relation to this Agreement shall be instituted in the Superior Court of the County of Orange, State of California, or any other appropriate court in such County, and Firm covenants and agrees to submit to the personal jurisdiction of such court in the event of such action.

8.2 Waiver. No delay or omission in the exercise of any right or remedy of a non-defaulting Party on any default shall impair such right or remedy or be construed as a waiver. No consent or approval of City shall be deemed to waiver or render unnecessary City’s consent to or approval of any subsequent act of Firm. Any waiver by either Party of any default must be in writing and shall not be a waiver of any other default concerning the same or any other provision of this Agreement.

8.3 Rights and Remedies Cumulative. Except with respect to rights and remedies expressly declared to be exclusive in this Agreement, the rights and remedies of the Parties are cumulative and the exercise by either Party of one or more of such rights or remedies shall not preclude the exercise by it, at the same or different times, of any other rights or remedies for the same default or any other default by the other Party.

8.4 Legal Action. In addition to any other rights or remedies, either Party may take legal action, in law or in equity, to cure, correct or remedy any default, to recover damages for any default, to compel specific performance of this Agreement, to obtain declaratory or injunctive relief, or to obtain any other remedy consistent with the purposes of this Agreement.

8.5 Termination Prior to Expiration of Term. City reserves the right to terminate this Agreement, at any time, with or without cause, upon thirty (30) calendar days written notice to Firm, except that where the continuation of services would constitute a danger to health, safety or general welfare, the period of notice shall be such shorter time as may be appropriate. Upon receipt of the notice of termination, Firm shall immediately cease all Project Services, except as may be specifically approved by the Contract Officer. Firm shall be entitled to compensation for all Project Services rendered prior to receipt of the notice of termination and for any Project Services authorized by the Contract Officer thereafter.

8.6 Termination for Default of Firm.
8.6.1 Firm’s failure to comply with any provision of this Agreement shall constitute a default.

8.6.2 If the Contract Officer determines that Firm is in default in the performance of any of the terms or conditions of this Agreement, he/she shall notify Firm in writing of such default. If such default is capable of being cured, Firm shall have ten (10) calendar days, or such longer period as City may designate, to cure the default by rendering satisfactory performance. In the event Firm fails to cure its default within such period of time, or if such default is not capable of being cured, City shall have the right, notwithstanding any other provision of this Agreement, to terminate this Agreement without further notice and without prejudice of any remedy to which City may be entitled at law, in equity, or under this Agreement. Firm shall be liable for any and all reasonable costs incurred by City as a result of such default. Compliance with the provisions of this section shall not constitute a waiver of any City right to take legal action in the event that the dispute is not cured, provided that nothing herein shall limit City’s right to terminate this Agreement without cause pursuant to Section 8.5.

8.6.3 If termination is due to the failure of Firm to fulfill its obligations under this Agreement, City may, after compliance with the provisions of Section 8.6.2, take over the Project Services and prosecute the same to completion by contract or otherwise, and Firm shall be liable to the extent that the total direct and indirect costs for completion of the Project Services required hereunder exceed the Maximum Contract Amount, and City may withhold any payments to Firm for the purpose of set-off toward the cost of completion of the Project Services. The withholding or failure to withhold payments to Firm shall not limit Firm’s liability for completion of the Project Services as provided herein.

8.7 Attorneys’ Fees. In the event any dispute between the Parties with respect to this Agreement results in litigation or any non-judicial proceeding, the prevailing Party shall be entitled, in addition to such other relief as may be granted, to recover from the non-prevailing Party all reasonable costs and expenses, including but not limited to reasonable attorneys’ fees, expert witness fees, court costs and all fees, costs, and expenses incurred in any appeal or in collection of any judgment entered in such proceeding. To the extent authorized by law, in the event of a dismissal by the plaintiff or petitioner of the litigation or non-judicial proceeding within thirty (30) calendar days of the date set for trial or hearing, the other Party shall be deemed to be the prevailing Party in such litigation or proceeding. For purposes of this section, "Reasonable attorney fees" shall be calculated by multiplying the actual number of hours reasonably expended by the attorney(s) handling the dispute on behalf of the prevailing Party by the hourly rate actually paid by the prevailing Party, but in no case shall the hourly rate exceed Two Hundred and Fifty Dollars ($250.00) per hour.

9. CITY OFFICERS AND EMPLOYEES: NON-DISCRIMINATION

9.1 Non-liability of City Officers and Employees. No officer or employee of the City shall be personally liable to the Firm, or any successor-in-interest, in the event of any default or breach by the City or for any amount which may become due to the Firm or to its successor, or for breach of any obligation of the terms of this Agreement.
9.2 Covenant Against Discrimination. Firm covenants that, by and for itself, its heirs, executors, assigns, subcontractors, subconsultants and all persons claiming under or through them, that there shall be no discrimination or segregation in the performance of or in connection with this Agreement regarding any person or group of persons on account of race, disability, medical condition, color, creed, religion, sex, sexual orientation, marital status, age, national origin, or ancestry. Firm shall take affirmative action to insure that applicants and employees are treated without regard to their race, disability, medical condition, color, creed, religion, sex, sexual orientation, marital status, national origin, or ancestry.

10. MISCELLANEOUS PROVISIONS

10.1 Confidentiality. Information obtained by Firm in the performance of this Agreement shall be treated as strictly confidential and shall not be used by Firm for any purpose other than the performance of this Agreement without the written consent of the Contract Officer.

10.2 Patent and Copyright Infringement.

10.2.1 To the fullest extent permitted by law, and in lieu of any other warranty by City or Firm against patent or copyright infringement, statutory or otherwise, it is agreed that Firm shall defend at its expense any claim or suit against City on account of any allegation that any item furnished under this Agreement, or the normal use or sale thereof arising out of the performance of this Agreement, infringes upon any presently existing U.S. letters patent or copyright and Firm shall pay all costs and damages finally awarded in any such suit or claim, provided that Firm is promptly notified in writing of the suit or claim and given authority, information and assistance at Firm’s expense for the defense of same, and provided such suit or claim arises out of, pertains to, or is related to the alleged negligence, recklessness or willful misconduct of Firm. However, Firm will not indemnify City if the suit or claim results from City's alteration of a deliverable where such alteration created the infringement upon any presently existing U.S. letters patent or copyright.

10.2.2 Firm shall have sole control of the defense of any such claim or suit and all negotiations for settlement thereof, Firm shall not be obligated to indemnify City under any settlement made without Firm’s consent or in the event City fails to cooperate in the defense of any suit or claim, provided, however, that such defense shall be at Firm’s expense. If the use or sale of such item is enjoined as a result of the suit or claim, Firm, at no expense to City, shall obtain for City the right to use and sell the item, or shall substitute an equivalent item acceptable to City and extend this patent and copyright indemnity thereto.

10.3 Notices. Any notice, demand, request, consent, approval, or communication either Party desires or is required to give to the other Party or any other person shall be in writing and either served personally during normal hours of operation of the Party receiving the notice, or sent by pre-paid, first-class mail to the address set forth below. Either Party may change its address by notifying the other Party of the change of address in writing. Notice shall be deemed communicated on the day personally served, or two (2) business days from the date of mailing if mailed as provided in this section. CITY COUNCIL AGENDA REPORT

MEETING DATE: February 18, 2020        ITEM NUMBER: 11A

To:                                    Mayor Richard D. Murphy & Members of the City Council
Presented By:                          Windmera Quintanar, MMC, City Clerk
Subject:                               Southern California Association of Governments (SCAG) 2020 Regional Conference and General Assembly

SUMMARY

The Southern California Association of Governments (SCAG) Regional Conference and General Assembly will be held May 6-8, 2020, at the JW Marriott Desert Springs Resort and Spa. Each year, SCAG’s member cities select a Delegate and/or Alternate to represent their City and participate at the conference.

RECOMMENDATION

1. Appoint a representative to attend and serve as the City’s Voting Delegate for the Southern California Association of Governments (SCAG) General Assembly; and,

2. Appoint a Council Member to attend and serve as the City’s Alternate Voting Delegate in the event of the Voting Delegate’s absence.

BACKGROUND

Southern California Association of Governments (SCAG) is the nation’s largest metropolitan planning organization, representing six counties, 191 cities and more than 18 million residents. SCAG undertakes a variety of planning and policy initiatives to encourage a more sustainable Southern California now and in the future.

At least once every year, SCAG convenes the General Assembly to bring together the official representatives of SCAG’s membership and help set the agency's course for the coming year. The General Assembly is a forum where policy matters can be identified and addressed. A quorum of the General Assembly consists of official representation from one-third of the member cities and one-third of the member counties.

Each member county and each member city has one official representative and one alternate in the General Assembly, except the City of Los Angeles, which has three official representatives and three alternates due to its population size. Member cities and
counties must communicate the names of their official representatives and alternates to SCAG within 45 days before the annual meeting of the General Assembly.

**DISCUSSION**

One aspect of SCAG’s 2020 Regional Conference is the General Assembly where the membership considers and takes action on the Fiscal Year budget, SCAG Officers, and proposed amendments to the SCAG Bylaws. The conference will include keynote speakers and panel discussions, an Awards Luncheon, Sponsor’s reception and many excellent networking opportunities with fellow elected officials, VIPs and stakeholders from throughout Southern California.

In order to facilitate the conduct of business at the General Assembly Meeting, each City Council must designate a Voting Delegate and Alternate. Designation of the Delegate is consistent with SCAG’s Bylaws.

The Voting Delegate and Alternate must be registered to attend the conference. The City is currently a member of SCAG and therefore registration and one night’s accommodations are free for the City’s voting delegate. Council Member Grose has expressed an interest in attending.

**Fiscal Impact**

Attendance at the conference and one night’s accommodations are provided at no cost for the voting delegate. The adopted Travel Policy allows reimbursement for lodging, associated meals, and mileage reimbursement upon the submittal and approval of an expense report and documentary evidence. Sufficient funds are available in the City Council’s travel and training budget for anticipated costs associated with this conference.
