Pipeline Safety

Pipeline Safety

Important Safety Information About Natural Gas Pipelines Near You

We have compiled important information about natural gas pipeline safety. Please share it with your department's staff members and the general public in your area.

City Planning and Development Projects

Contact SoCalGas with your planning and development projects and we will guide you through safe building around our major natural gas pipelines. We encourage you to review the information provided by **Pipelines and Informed Planning Alliance (PIPA)** because the decisions you make can impact the safety of the community surrounding the pipeline.

Contact 811 Before You Dig. It's the Law!

Keep Your City Safe - Contact 811 Before You Dig

Public officials are encouraged to work with contractors to have buried utility-owned lines marked before excavation. Everyone, including contractors, homeowners, and residents, should **contact 811** at least two business days before digging. This is a free service and it could help prevent injury or death, costly property damage and loss of utility service.

Mark Out your proposed project area in white paint or provide other suitable markings.

Contact 811 Underground Service Alert (USA) for a ticket at least two business days before digging. Request a ticket at california811.org or dial 811.

Wait To Dig until we either mark our natural gas pipelines or you are advised that the area is clear.

Use Only Hand Tools within 24 inches on each side of marked utility lines to carefully expose the exact locations of all lines.

Note: SoCalGas does not mark customer-owned natural gas lines, which typically run from the meter to the customer's natural gas equipment. To have customer-owned lines located and marked before a project, contact a qualified pipe-locating professional.

Check utility responses to your 811 ticket by visiting DigAlert.org or USANorth.org

SoCalGas pipelines deliver natural gas to approximately 22 million residential and business customers. To protect the integrity of its energy system, SoCalGas routinely performs various pipeline safety and maintenance tasks, including testing, repairing, replacing, and upgrading its pipelines — and has ongoing technical training and testing for employees. To perform these tasks, we must be able to access the pipeline right-of-way. Please keep the area above pipelines accessible.

For more information on our integrity management plan outline, visit socalgas.com/PipelineSafety

LosAlSewerDistrict@gmail.com

The three-week look ahead for the Rossmoor Sewer District project involves the following work. Work will occur on the following streets: Lexington at Corporate Center Dr., Oak St, Toland Ave, Via El Mercado, Kaylor St at Toland, Katella Ave at the intersections of Chestnut St, Walnut St. and Oak St. You will also see work occurring in the adjacent areas of Rossmoor and Seal Beach. The work will consist of pipe cleaning and grouting, manhole repairs and small segments of pipe replacements. Service to residents should not be affected. However, in the event that there is an interruption, residents and businesses will be notified.

Short-Term Rental

My City ♥ My Los Al

May 25 - July 30

www.surveymonkey.com/r/HNTJY85

Short Term Rental Survey

The Los Alamitos Planning Commission would like to seek input from residents and property owners on the possibility of permitting short term rental units to occur in Los Alamitos. A short-term rental is an establishment, often a private home or apartment, providing overnight accommodation to guests for payment and for periods of fewer than 30 consecutive calendar days.

Please scan the QR code on the image or follow the links down below..
