Addition of Three New Photo Enforcement Cameras

LOS ALAMITOS, CA – Three new red-light photo enforcement cameras are slated for installation in the near future. This initiative aims to enhance the existing system at Los Alamitos Boulevard and Katella Avenue, completing traffic monitoring for all lanes and approaches.

The intersection was originally selected based on the high traffic volume, as Katella Avenue at Los Alamitos Boulevard is recognized as one of the busiest intersections in Orange County.

The installation is expected to be completed mid-March. During the initial 30-day monitoring period, violators will be issued a warning letter notifying them of the violation. After the 30-day period, citations will be issued to violators.

If you have additional information, contact Robert Acosta at (562) 431-2255-ext 445.
